4.3 Finally, locate the upholstered felt piece on the back of the lower part of the cape and fit it to the felt piece on the seat to ensure that the cape fits the sofa.

4.2 Secondly, find the air hose (port No.7) and heating wire (port No. 8) from the gap between the back of the main unit and the seat and connect them to each other.

Installation steps/methods

One-piece installation free

No need for complicated installation and operation

1. Installation method of connecting wire

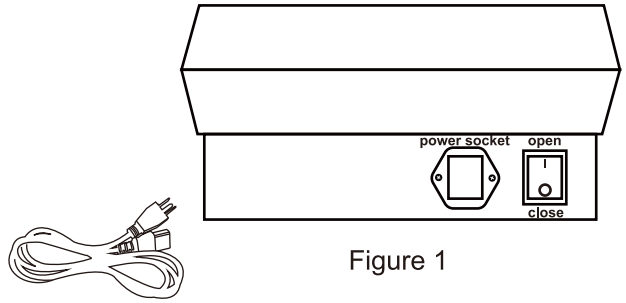

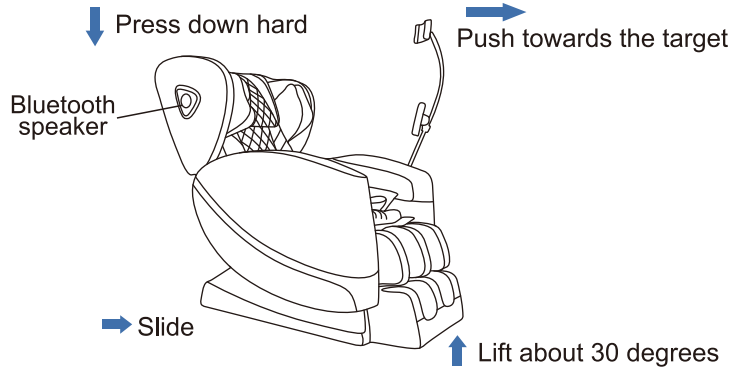

Figure 1

2. Moving method of massage chain

1.People stand behind them massage and press down hard to the top.

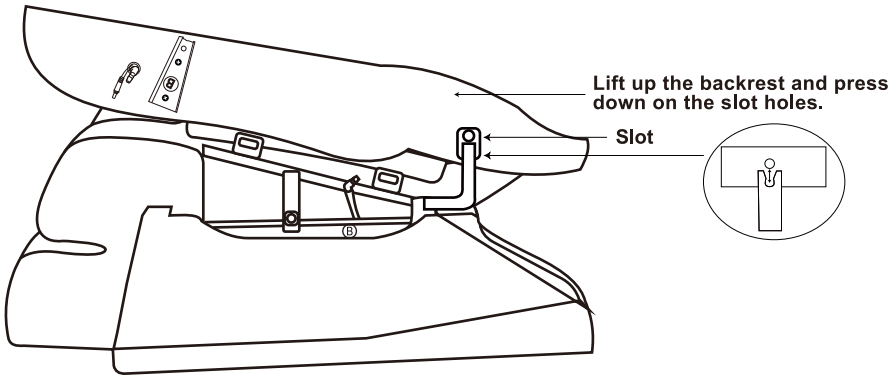

2.Lift the chair back 30°to facilitate the free movement of the massage chair in the room.

3.When moving the massage chair, be sure to fully retract the leg pad. If you do not comply, you may be injured.

4.When someone is sitting on the massage chair, please do not move the massage chair.

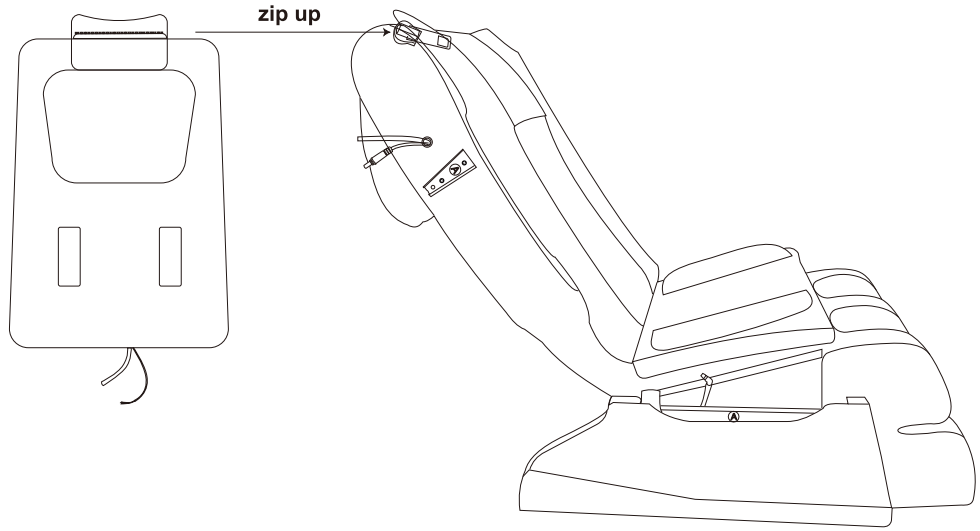

5.The floor may be damaged when moving the massage chair. It is recommended to put a cushion under this product.

step 1

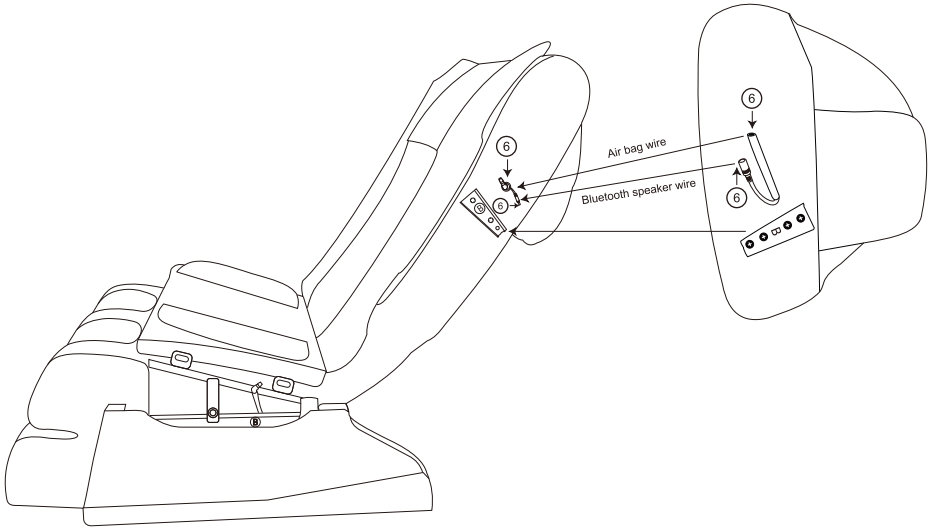

1.1 Firstly, take out the[Part A] main unite from the[A BOX] carton and place it on the floor. And take out the [Part I] backrest unit from the [B BOX]. Life up the backrest to align the slot holes and press down the backrest upright and firm.

step 4

4.1Firstly,take out the[Part H] Massage Chair Cloakfrom the [B BOX] carton and, through the zip, combine the upper part of the cloak to the head of the main unit

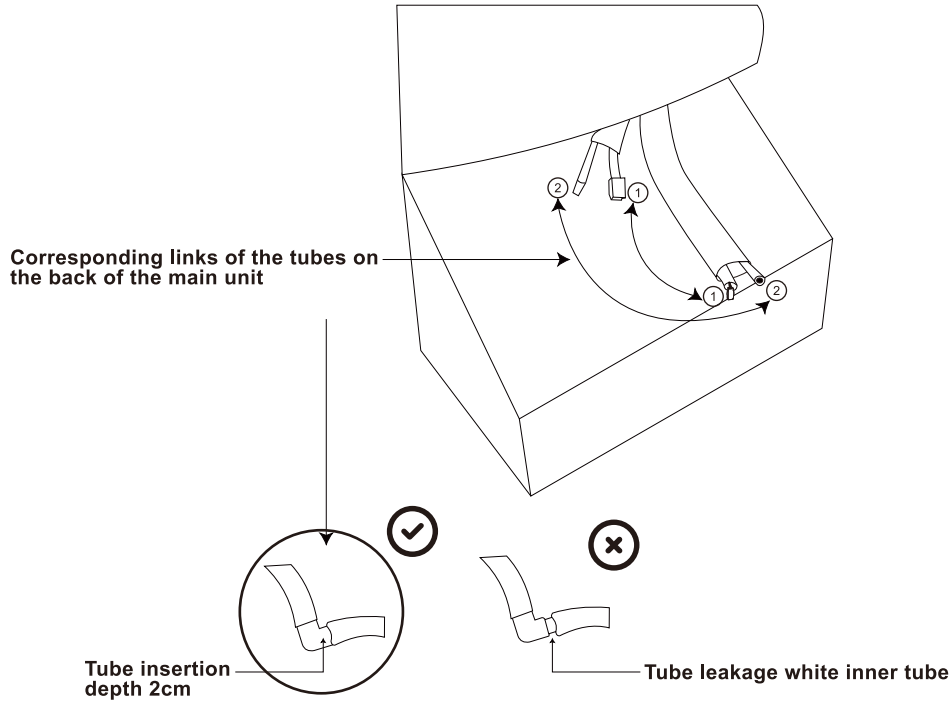

step 3

3. Take out the shoulder [Part G] from the carton [B BOX] which has the letter 'B' in the shoul der slot

Firstly, connect the port No.6(Air bag & Bluetooth speaker wire) to each other, ensuring the air tubes are fully inserted. Then, insert the shoulder's slot into the main unit's slot, both markedwith the letter 'B'.

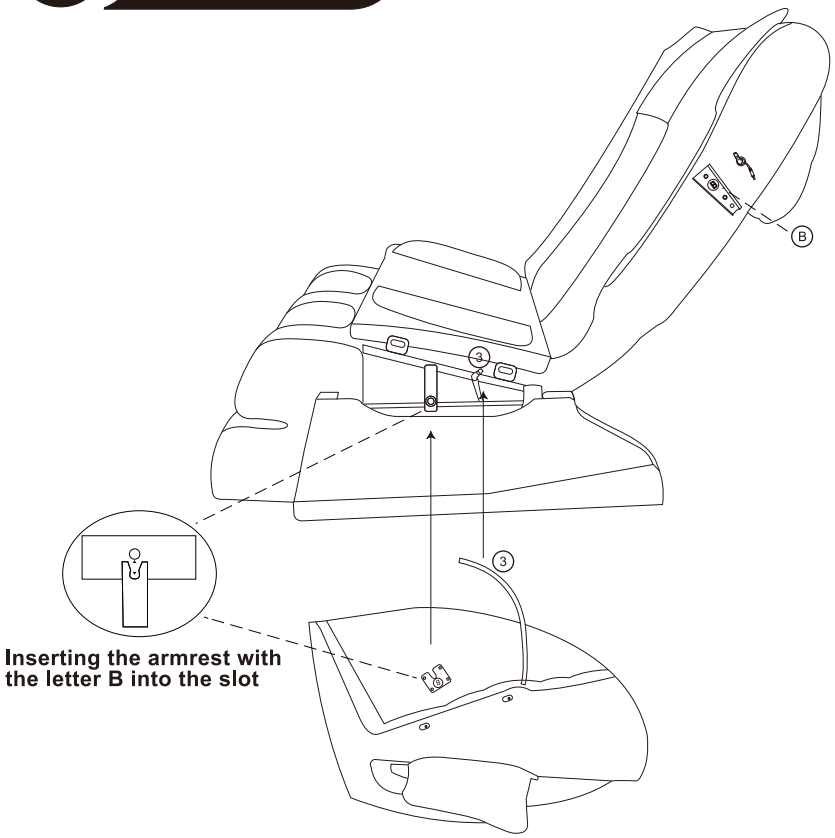

Note: The other shoulder is fitted in the same way. The slot on the other shoulder is marked with the letter 'A'.

NOTE: The insertion depth of the cannula for all subsequent steps is 2 cm and complete insertion is considered correct insertion. Leakage of the white inner tube is incorrect.

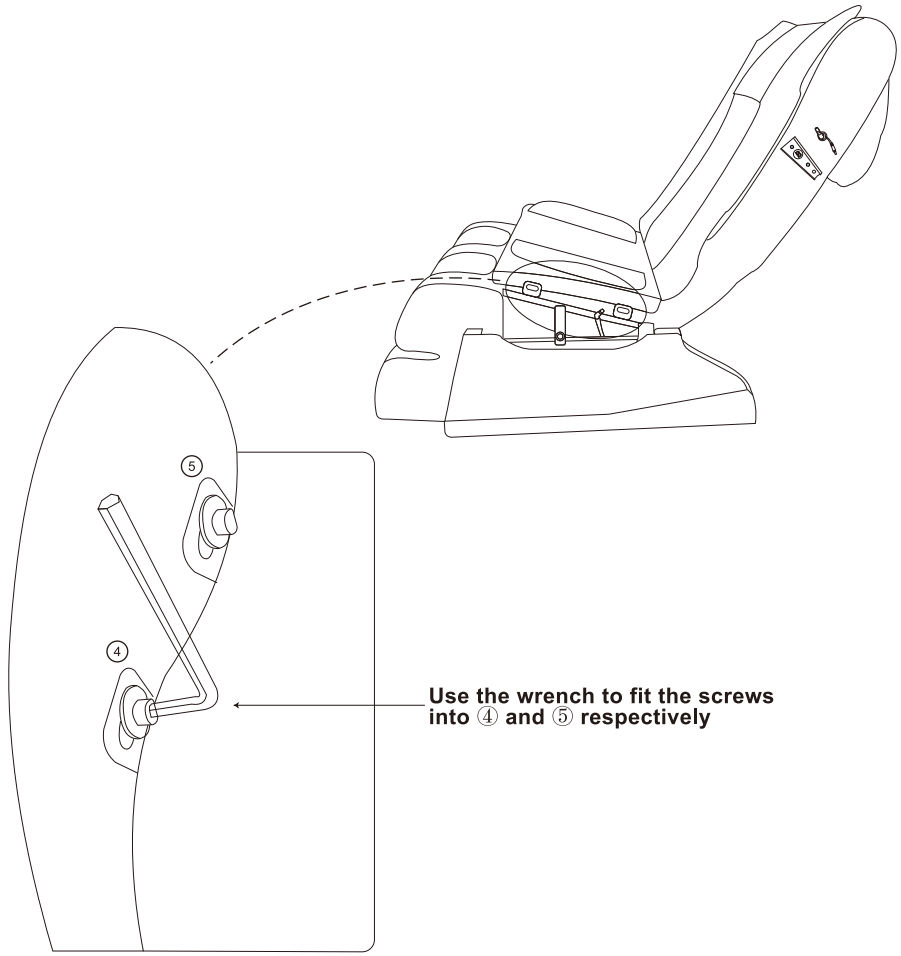

1.2 When the backrest is firmly upright, connect the two wires at the back of the base backrest (① are two recessed connectors / ② are two air tubes)

step 2

2.1 Take out the left and right armrest parts [Part F] from the carton [B BOX]. First, connect the ports 3 to each other, then insert the armrest with the letter ‘B' into the slot of the main unit with the letter ‘B', making sure that the shoulder is secure.

Note: The armrest with the letter ‘A’ on the other side is installed in the same way.

2.2After completing step 2.1, locate the two holes for the seat frame ports No.4 and No.5, and use an Allen key to screw in the screws to complete the fit of the shoulder to the seat frame.

Note: Please follow this step to complete the installation of both the left and right shoulder screws.
