

# Assembly Instructions

**Caution: You must read this before you proceed**

## Care & Maintenance

- |                                                                                       |                                                                                           |
|---------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|
| ⊘    | ● Not for commercial use. For residential use only.                                       |
| ✓    | ● Furniture may scratch floors. We recommend using furniture pads to protect your floors. |
| ⊘    | ● Do not put hot items directly on furniture surface.                                     |
| ⊘    | ● Do not clean furniture with harsh cleansers or polish.                                  |
| ⊘  | ● Do not place furniture under direct sunlight.                                           |
| ⊘  | ● Do not place furniture near heating or cooling vents.                                   |
| ⊘  | ● Do not write on furniture without a padded barrier to protect the surface.              |
| ⊘  | ● Do not place furniture outside . For indoor use only.                                   |
| ⊘  | ● Stains may be removed with mild soap solution and damp cloth.                           |
| ⊘  | ● Children should not climb or jump on the furniture.                                     |
| ✓  | ● Dust and pick-up spills using a clean, non-colored, lint-free cloth.                    |

Please look in the magic tape pouch for hardware packs and legs.

Sets often ship in multiple boxes and may arrive a day or two apart.

|       |                                                                                     |                           |     |

# Assembly Preparation

Before Beginning Assembly:

• Read instructions, cover to cover-

• Have 2 adults on hand for assembly-

• Do not assemble on flooring or carpet-

• Assemble on a clean non-marring surface (packing foam)-

• Save all packaging until finished-

# Assembly Steps

## OVERVIEW

**FRONT FACING**

This Bed have multiple parts and may require up to 60 minutes to assemble. To give you an overview of the Bed parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

**Note: It is recommended that you have an adult partner to assist during the entire assembly process.**

Step 1

|                    |                       |                        |                         |                         |
|--------------------|-----------------------|------------------------|-------------------------|-------------------------|
| <b>3</b> Bolts x 8 | <b>8</b> Allen wrench | <b>9</b> U-bracket x 4 | <b>10</b> U-bracket x 4 | <b>11</b> U-bracket x 4 |
|                    |                       |                        |                         |                         |

Attach the bed legs (10) and Plastic washer (11) to the headboard below (B) and the footboard (D)  
Attach the U-bracket (9) to the headboard below (B) and the footboard (D) using bolts (3) with allen wrench (8).

Step 2

|                    |                            |                          |                       |
|--------------------|----------------------------|--------------------------|-----------------------|
| <b>1</b> Bolts x 8 | <b>5</b> Spring washer x 8 | <b>6</b> Flat washer x 8 | <b>8</b> Allen wrench |
|                    |                            |                          |                       |

Attach the headboard below (B) to the headboard (A) using bolts (1), spring washers (5) and Flat washers (6) with allen wrench (8)

**Step 5**

|                                                                                   |                                                                                     |                                                                                     |                                                                                     |
|-----------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| <b>2</b> Bolts x 8                                                                | <b>5</b> Spring washer x 8                                                          | <b>6</b> Flat washer x 8                                                            | <b>8</b> Allen wrench                                                               |
|  |  |  |  |

Attach the side rail (C) to the headboard (A/B) and the footboard (D) using bolts (2), spring washers (5) and Flat washers (6) with Allen wrench (8)

**Step 6**

|                                                                                       |                                                                                       |
|---------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
| <b>4</b> Bolts x 6                                                                    | <b>8</b> Allen wrench                                                                 |
|  |  |

Attach the middle support legs (G) to middle support bar (F) and the slats (H) using bolts (4), with allen wrench (8).

## Step 7

Attach the completed slats (H), Middle support bar (F), Middle support legs (G) to the side rail (C) using screws (7), by screwdriver ( Not provided )

Secure the middle support bar (F) to the U-bracket (9)

## Step 8

For the middle support legs (G), turn the leveler in to retract and out to extend.

Place the Bed on a LEVEL SURFACE.

Inspect it and make sure all parts are adequately connected

**Don't push too hard, shake on the bed.**

This would help to align all the parts at all the joint areas.

**CAUTION 1: When tightening these screws, tighten sequentially.**

**DO NOT** tighten any screw fully and then towards the next one.

**This would cause the frame to warp. If there is still wobbles, loosen the screws and execute this same process. DO NOT** tighten any screw fully and then towards the next one.

**WARNING!! IF BED IS NOT STABLE , IT COULD LEAD TO DAMAGING THE PRODUCT**

Ensure all screws are fully locked into position. The bed is ready to be used.

**Caution 2: This Bed can only be used on a flat. level surface**
