IMPORTANT: Please check contents before attempting to assemble the greenhouse.

Arrange parts into groups as listed on your pack contents.

Unfold cover and put it aside to be used after constructing the frame.

Step 1

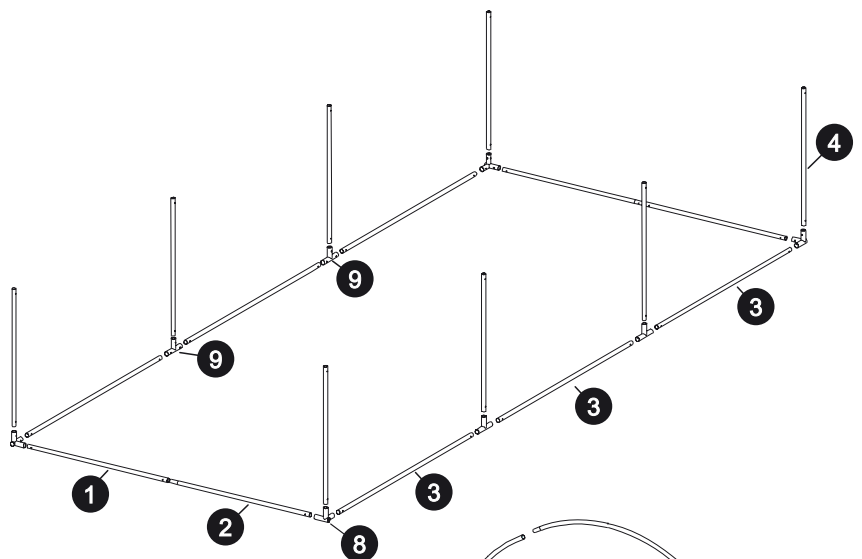

Assemble the base with the parts listed below.

2x1 4x3 4xA

2x2 6x4 2xB

Join frame pieces together with part 8 - the connectors.

Once the base is assembled build upwards using the parts listed in step 2.

Step 2

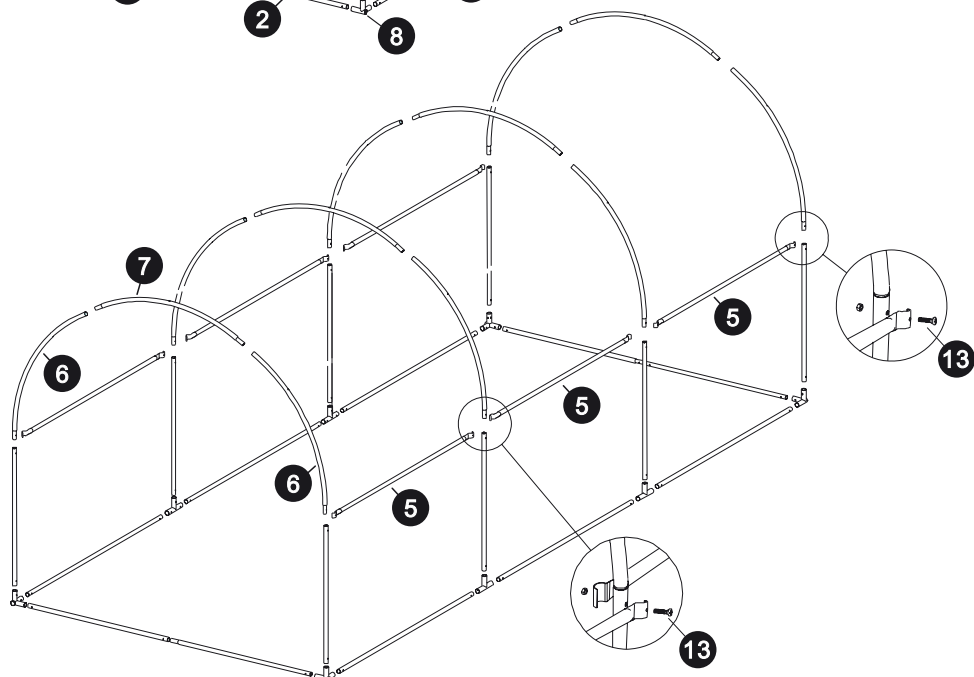

This builds the next level. Use the parts listed below.

4x3 4xB

6x5 2xC

Connect the ends of the tubes together with the nut and bolt as shown in the picture to the right.

Once completed build the next level with parts listed in step 3.

Step 3

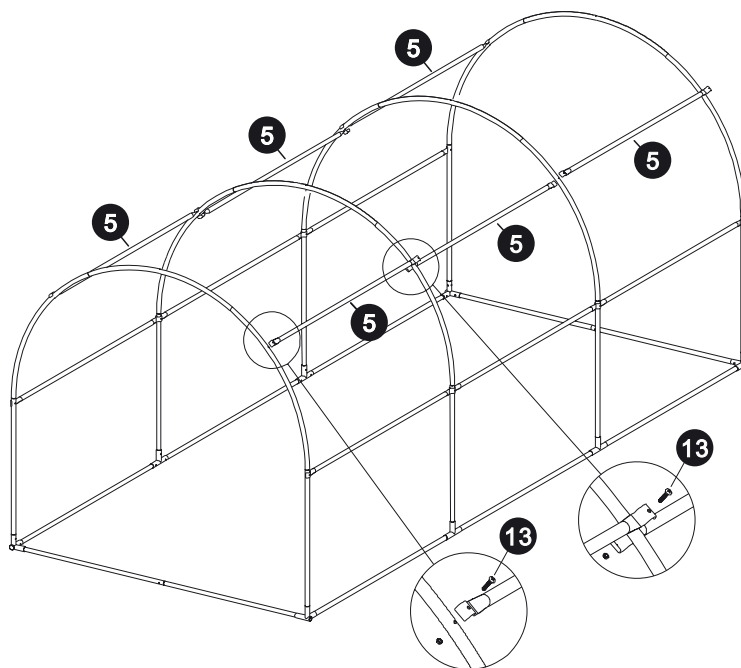

This forms the next level.
Use the parts listed below.

4x3 4xB

6x5 2xC

Connect the ends of the tubes together with the nut and bolt as shown in the picture to the right.

This forms the next level.
Once completed build the next level with parts listed in step 4.

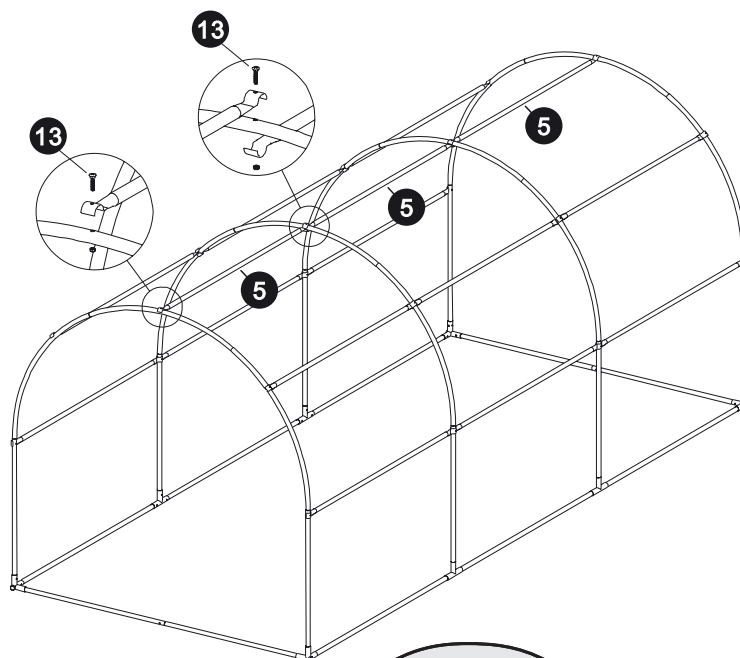

Step 4

This forms the next level.
Use the parts listed below.

2x3 2xB 1xC

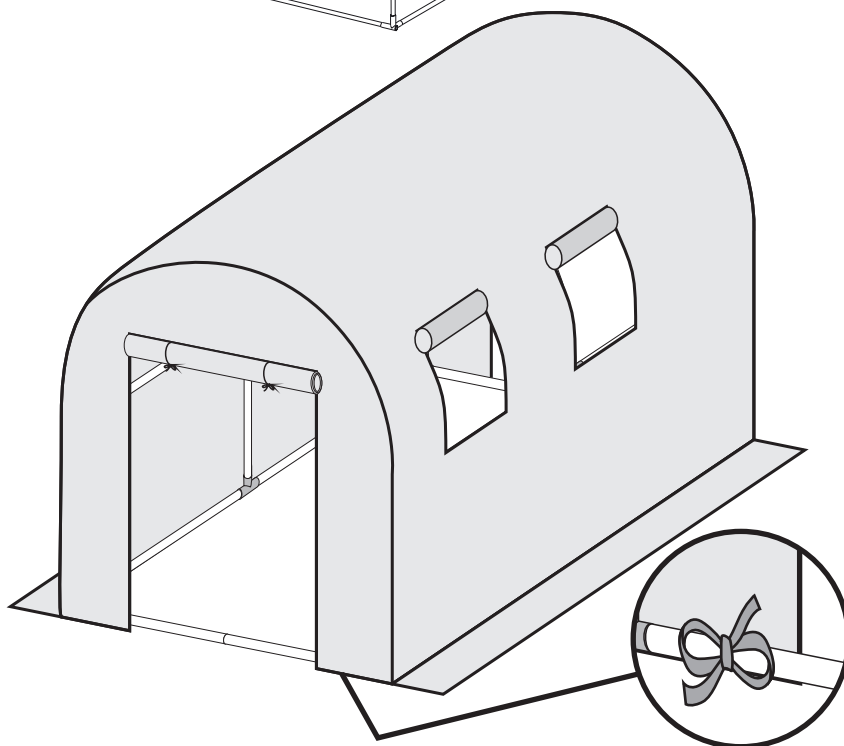

Connect the ends of the tubes together with the nut and bolt as shown in the picture to the right.

Once completed place the cover (12) over the frame and attach as shown in step 5.

Step 5

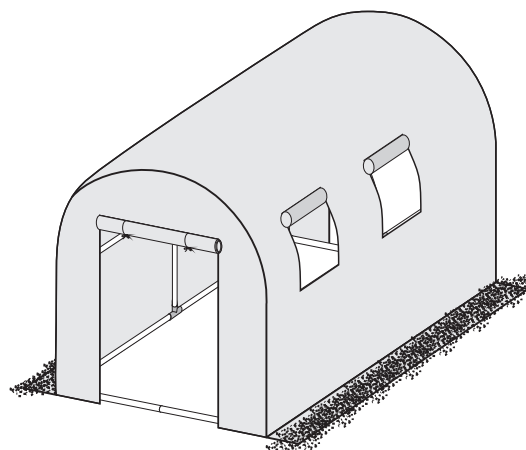

Place the cover (12) over the frame and tie the strings around the frame pieces, to keep the cover attached to the frame.

Assembling the anchors and ropes

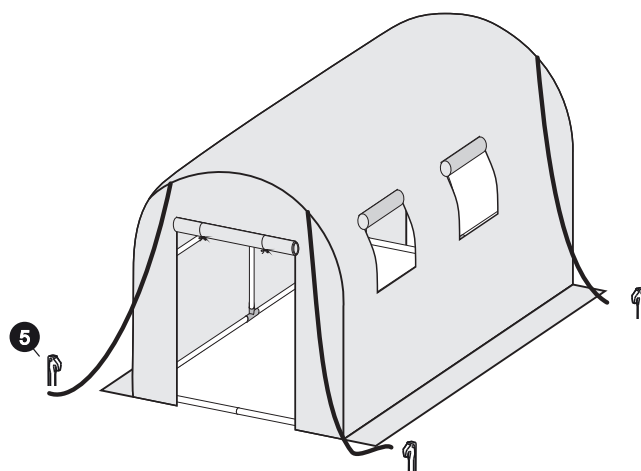

Step 1 - (Suggestion)

You can put sand over the sides of the greenhouse cover.

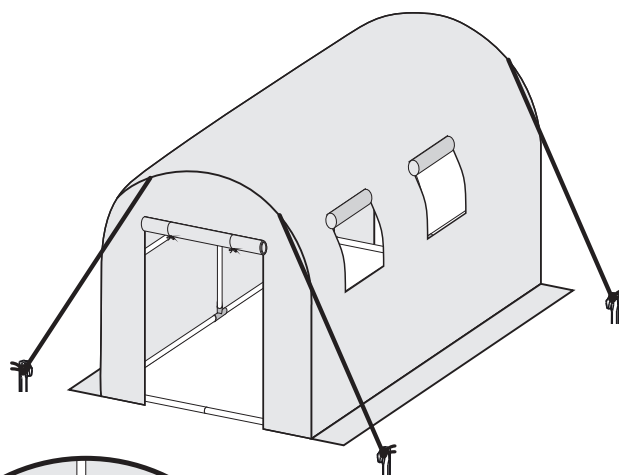

Step 2

Fix the anchors (Part 11) into the ground on each corner of the greenhouse, (abt 2 feet away) as shown in the figure.

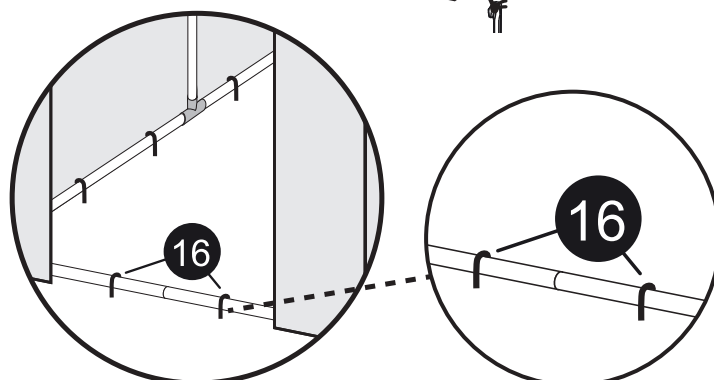

Step 3

Take each rope individually and Connect the top of the rope to the loop on of the greenhouse cover, tie the other side to the anchor stake. Do this to all 4 sides.

Step 4

Fix the rest of the anchors (Part 16) onto the base of the greenhouse, Securing it into the ground.
