Assembly Steps

Overview

This Chair has multiple parts and may require up to **30** minutes to assemble.

To give you an overview of the Chair parts, the above picture is to help you put the various parts into perspective. Please read through the instructions herebelow to familiarise yourself with the parts and steps before assembly.

Step 1

Open the carton and place all the parts onto a clean, non-marring surface.
Place Backrest(A) on the ground, as shown in picture above.

Step 2

Attach Left Armrest (B) and Right Armrest (C) to Backrest(A) using Bolts(②) and Washers(④) with Allen Key(①).

DO NOT FULLY TIGHTEN THE BOLTS.

ATTENTION: Occasionally some of the PE Wicker shifts and covers the mounting positions preventing easy assembly; The PE Wicker should never be cut, but moved away from the mounting positions.

Step 3

Attach the Seat Panel (D) to Backrest(A), Left Armrest(B) and Right Armrest (C) using Bolts(③) and Washers(④) with Allen Key(①) as the picture shown.

DO NOT FULLY TIGHTEN THE BOLTS.

Step 4

Now tighten all Bolts in a sequential manner.

Then add the Bolt Caps (⑤) onto the 2 Bolts as shown in the picture above

Step 5

Check for stability and then tighten all Bolts at all joints.

Adjust the Legs Pre-installed Levellers until the chair level with the ground.

Note: DO NOT fully tighten a Bolt in one go and then move on to the next.

Rather in a sequential manner, gradually tighten each Bolt until all Bolts are evenly secured. This methodology will ensure maximum evenness once all Bolts are fully tightened.

Step 6

Place the Cushion (D), Back Pillow(E) and Armrest Pillows (F) on the Seat Panel (D). This Chair can only be used on a flat, level surface.

Your Chair is ready for use.
