

1

Fix the hanging board on the ceiling with screws.

**Material:** iron + wood  
**Dimension:** 55\*25\*100CM  
**Light source:** E27\*2

5

Pass the main power cable through a round iron ball along the hanging chain, and then lead to the ceiling plate along the hanging chain.

Pass Midea and Full Teeth through the wooden board lamp body and fix it with a lifting ring.

2

Lead the lampshade power cord out of the hoisting ring and the chain.

3

The dental rod passes through the wooden board lamp body and is fixed with a nut.
