

Simply Kids

Anti-Allergy Pocket Sprung Mattress

Pocket sprung comfort with anti-allergy protection

The Jay-Be Simply Kids Anti-Allergy Pocket Sprung Mattress is thoughtfully designed to give your child responsive support, while also providing anti-allergy and anti-dust mite protection. Designed with special consideration for children prone to allergy-related sensitivities, this mattress is 100% foam free and made with hypoallergenic, odourless materials. It is treated with a natural salt-based fire retardant (FR), and features Purotex™ probiotic fabric technology - a naturally derived treatment designed to support a cleaner, fresher sleep environment. Active probiotics are infused into the fabric and gradually released over time, helping to absorb moisture and reduce the presence of dust mites and other microorganisms that can produce common allergens.
