

FAQ

1. What is a Salt Bowl Lamp and its benefits?

The Salt Bowl Lamp is the perfect addition to your relaxation routine! This lamp not only provides a soothing and peaceful ambiance to any room, but it also doubles as a therapeutic massage tool. Heated Himalayan salt stones placed over a 40-watt light source produce effects akin to receiving a hot stone massage!

2. Where does it come from?

Made from pure Himalayan salt obtained from the foothills of the Himalayan mountain range in Pakistan, the Salt Bowl Lamp and salt stones are carefully sculpted to provide comfort for your skin, leaving it feeling soft, smooth, and refreshed.

3. Is my Salt Bowl Cracked?

Yes, however, cracks in Himalayan Salt are common and natural. Himalayan salt is extracted from salt mines, and during this process, it may experience impacts or pressure that lead to surface cracks. Once extracted, the salt is carved or shaped into different products like lamps, blocks, or decorative items. The cracks are simply a result of the natural processes, environmental factors, and the inherent crystalline structure of Himalayan salt, and they do not affect its quality or benefits.
