

OPERATING INSTRUCTIONS FOR THE PHONOGRAPH

First, connect the power cord to both the wall outlet and the record player, plug in the audio cable, and turn on the power switch.

Plug in the USB drive. The rightmost button is the control key.

If you want to connect via Bluetooth, turn on the subwoofer, then grab your phone and pair it via Bluetooth.

If you want to listen to the radio, press the MODE button to switch to radio mode. Then press the middle button on the left to search for stations. After the search is complete, press the leftmost button to select a channel and play the station you want to listen to.
