Number of Shelves: 0

Number of Drawers: 4

Number of Leaves: 0

Style: Traditional

Finish: Light Wood

Brand: Hooker Furniture

Product Description: A stunning accent for any space in your home, the Floresville Bachelors Chest is crafted in a carved gambel oak motif inspired by the scrub oaks prominent in the American West. The Sandstone finish has characteristic aged black highlights reminiscent of the sandstone quarried in Texas Hill Country for centuries. There are 4 drawers, one live USB port and three electrical outlets, along with a touch switch located on each side of the case and a light underneath.

Collection Features: Inspired by the most beautiful examples of American countryside, Hooker Furniture's Hill Country Collection imparts an authentic American character. Hill Country is a collection of bedroom, dining, home office and accent furniture crafted of flat-cut rustic white oak veneer that is cracked before the finish is applied to appear seasoned over time.

Status: Active

Finish: MWD: This accent finish was inspired by native Sandstone with characteristic aged black highlights that has been quarried in the Texas Hill Country for centuries. The custom-crafted hardware in an aged pewter finish has shaped back plates and is inspired by hand-wrought ironworks from Texas Hill Country. Distressing includes rasping, hand planking, chopping and worm holes.

Features: Four drawers

FC707 three plug outlet with USB port
One touch switch located on each side of case
One light underneath
Cord clip
Material: White Oak Veneers and Cedar

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
