2. Thread the pipe screw part way into the center hole of the single bar and secure with hex nut. Attach the single bar to the junction box using two box screws. The side of the single bar marked "GND" must face out. **The junction box is not included.**
3. Follow wiring instructions carefully (see fig.2).
4. Attach the lamp body onto the junction box, aligning screws on single bar with mounting holes and lock it securely with the ball nut. Put the candle sleeve over the lamp holder.
5. Install the light bulbs (not included) in accordance with the fixture's specifications. **NOTE: DO NOT EXCEED THE MAXIMUM WATTAGE RATING!**
6. **With silicone caulking compound, caulk completely around where back of cover meets with the wall surface to prevent water from seeping into outlet box.**

CONNECTING THE WIRES (Fig.2)

Make sure all wire nuts are secured. You may wrap the connections with electrical tape. If your outlet box has a ground wire (green or bare copper) connect fixture's ground wire to it. Otherwise attach the bare copper fixture wire to the green ground screw on the mounting plate.
