Assembly Steps

Overview

This Ottoman has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Ottoman parts, the above picture is to help you put the various parts into perspective. Please read through the instructions herebelow to familiarise yourself with the parts and steps before assembly

Step 1

Place the Ottoman Body(A) facedown onto a flat table or panel as shown in the picture above.

You will now have the Ottoman body(A) and all 4 Ottoman Legs(B) facing skywards. Insert each Ottoman Leg(B) completely and vertically into each body frame site.

PRESS FIRMLY DOWN with your hand until there is no gap.

Attach each Ottoman Leg (B) to the Ottoman body (A) using the Long Bolts (①), spring washers (③), washers (②) and the Allen Wrench (⑥)

Step 2

Place the Board (C) with its face skywards.

Align the tenons of the Board (C) into the Mortise of the Ottoman Legs(B) as shown above.

Step 3

Affix the Board (C) to the Ottoman Legs (B) using Iron piece components (⑤)+ Short Screws (④) and the Allen Wrench (⑥)

Step 4

Turn the Ottoman right side up.

Place the Ottoman on a LEVEL SURFACE.

Inspect it and make sure all parts are adequately connected. Gently and gracefully, sit onto the Ottoman.

This would help to align all the parts at all the joint areas. If no wobbles are found, proceed to tighten all the Bolts and Screws.

CAUTION 1: When tightening these Bolts and Screws, tighten sequentially.

DO NOT tighten any Bolts/Screws fully and then towards the next one. This would cause the frame to warp.

If there are still any wobbles after tightening, loosen the Bolts/Screws and execute this same process.

WARNING!! IF OTTOMAN IS NOT STABLE , IT COULD LEAD TO DAMAGING THE PRODUCT.

Ensure all Bolts/Screws are fully locked into position.

The Ottomant is ready to be used.

Caution 2: This Ottoman can only be used on a flat, level surface.
