

# Care and Cleaning

---

## Mattress cover

- Spot clean stains with mild detergent and a soft, damp cloth
- Do not remove cover from mattress to clean
- Vacuum regularly with a hose attachment to remove dust and dirt

## General Maintenance

- Consider investing in a quality mattress protector to keep your mattress free from dust, dirt, and other allergens
- Use only with recommended bed frames and bases to ensure proper support
- Rotate mattress every three to six months for more consistent, even wear on materials

**To keep your mattress in the best condition,  
please follow these care tips and cleaning best practices.**
