NAUTICA HOME

COOL + CALM + COMFORTABLE

- 1 Copper Infused Cooling Ice Lux™ Fabric Cover**
Innovative Ice Lux™ Fabric is cool to the touch and helps keep you cool and comfortable, while the anti-microbial copper helps increase circulation, inhibits bacteria and viruses for a healthier sleep surface.
- 2 Mesh Fabric Border**
Increases refreshing air flow.
- 3 2" Cooling Air Flow Gel™ Memory Foam**
Larger self-ventilating openings throughout the cells allow air to circulate more freely than with other gel foams. Air flow gel molds to your individual shape to provide gentle contouring support. Vertical perforations enhance air flow.
- 4 3" Channel Vented Gellux® Engineered Latex Foam**
State-of the art process combines liquid gel with engineered latex for a cooling, responsive sleep surface. Channels increase refreshing air flow..
- 5 1" Gellux® Engineered Latex Foam**
- 6 Patented Edge Plus™ Perimeter Support**
Patented foam tray provides a solid circumference around the comfort foam layers, increases the sleep surface and prevents edge sag.
- 7 8" Reflexa Foam Base**
High density foam support provides long lasting durability and support.
