NOTE

1. Make sure the switch is ON before using, or the solar fence lights won't light or charge.
2. Please position these solar lights for direct sunlight without shelter for better charging.
3. Locate the solar fence lights without shade from trees, or other environments that block sunlight.
4. Charging the solar fence lights at least 10 hours to get fully charged before first use.
5. Please keep the solar panel and solar fence light clean and free of impurities.
6. In cloudy weather or winter, charging time may be longer and working time may be shorter. This is a common feature of solar powered lights and should not be considered as quality problem.
7. The solar fence light will automatically turn on at night and auto turn off at dawn.
8. Please always keep the solar lights distant from other night light sources to keep lighting.
9. Do not dispose of the product and batteries in fire. When the product or batteries are disposed of in fire, the heat build-up may cause explosion.
10. Do not disassemble the product by yourselves.
11. Do not soak the product in water.
