

INSTALLATION

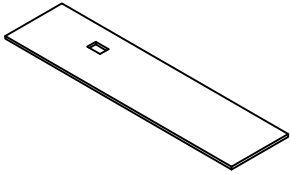

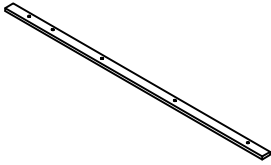

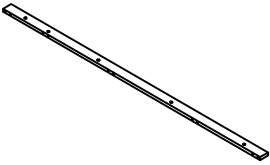

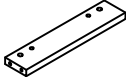

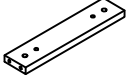

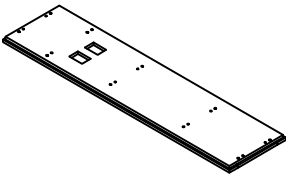

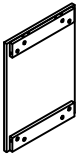

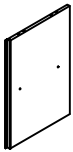

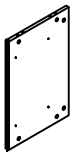

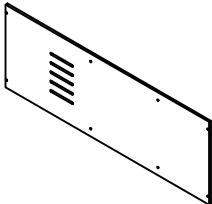

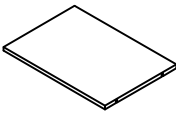

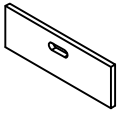

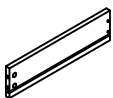

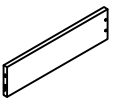

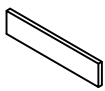

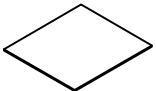

Product Manual

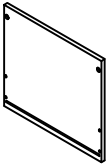

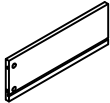

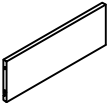

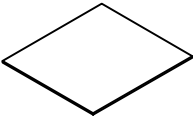

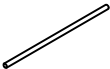

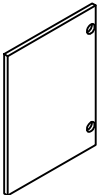

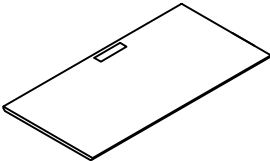

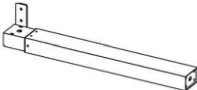

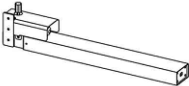

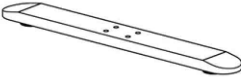

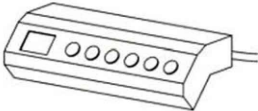

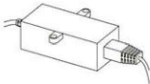

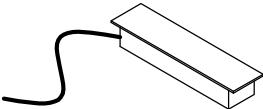

Electric Lift Table-Installation and Safety Instructions

1. Please read carefully: Please read all instructions carefully before installation.
2. Check components: Open the package and confirm that all desktop panels, tripods, screws and accessories are complete and not damaged. Compare with the attached checklist. If you find any parts missing or damaged, please contact the seller immediately.
3. Required tools: Prepare a Phillips screwdriver and a rubber hammer. If you find the provided hexagonal wrench difficult to use, you can prepare additional ones. You can use a low-speed electric screwdriver, but tighten all screws by hand to avoid excessive torque that may cause slippage or damage to embedded components on the desktop, and to ensure that the appearance of the product will not be damaged by the torque of the electric screwdriver.
4. Team assembly: Due to the large size of the product, it is recommended to arrange for 2 people to carry and assemble it. Never attempt to move or install alone to avoid personal injury or product damage.
5. Area settings: Choose a spacious and flat area. Keep the work area clean and assemble close to the final placement location to reduce travel distance.
6. Protection measures: Place soft cloth or cardboard on the floor. When installing, place the desktop downward to prevent scratches.
7. Screw installation: Align the screw with the drilled hole, insert two-thirds of it, adjust the alignment and tighten completely to ensure stability. avoid Over tightening.
8. Safety: Please keep children and pets away. Operate in a dry, stable environment. Be careful with tools and sharp edges.
9. Collaboration: At least two people must cooperate when flipping products to ensure smoothness.
10. Stability check: After installation, check whether all screws are tightened and whether the table legs are level. If necessary, adjust the leveling feet. Make sure that all cables have enough room throughout the table leg's entire travel to prevent them from being pulled.
11. Cleaning: Wipe with dry soft cloth. Avoid wet cleaning or using harsh chemicals.
12. Humidity: Keep indoor humidity at 40-60%. Avoid excessive moisture or dryness to prevent deformation or cracking.
13. Sunlight: Avoid direct sunlight to prevent fading or cracking. Use curtains or blinds if necessary.
14. Load-bearing capacity: Do not stand or place heavy objects on the table. The weight should be evenly distributed.
15. Maintenance: Check the tightening of the screws every few months and retighten them if they are loose.
16. Child safety: Please keep young children away during assembly and daily use. Children are prohibited from climbing or playing on the tabletop.
17. Installation issues: If you have any questions during the assembly process, please contact the seller for guidance.
18. Return: Since this is a large item, please contact the seller to confirm the return address and method before returning it. Keep packaging intact to prevent shipping damage.
19. Replacement parts: If parts are missing or damaged, please contact the seller for free replacement or re-delivery.

Notice! Don't use screws to fix the connectors here to the cabinet panel first. Align them with the holes. After passing the table legs, adjust them to the appropriate position and then fix them with screws.

Don't forget to insert the "L" shaped gasket before fixing the table legs with the screws!
