Assembly Steps

Overview

This Table has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Table parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Open the carton and place all the parts onto a clean, non-marring surface.
Attach the Top Panel(B) to Side Support Bar(A) using Bolts(1) with Allen Key(3) as shown above.

Do not fully tighten Bolts.

Step 2

Attach the Side Panel(C) to Side Support Bar(A) using Bolts(1) with Allen Key(3) as shown above.

Do not fully tighten Bolts.

Step 3

Attach the Horizontal Base Support Bar (D) to Side Support Bar(A) using Bolts(2) with Allen Key(3) as shown above.

Do not fully tighten Bolts.

Step 4

Attach the Side Support Bar(A) to Side Panel(C) and Top Panel(B) Horizontal Base Support Bar (D) using Bolts(①&②) with Allen Key(③) as shown above.

Do not fully tighten Bolts.

Step 5

Stand the Table up. Place the Table on a LEVEL SURFACE.

Inspect it and make sure all parts are adequately connected.

Gently and carefully, sit onto the Table.

This will help to align all parts at all the joints. Then get off the Table, and in a sequential manner, proceed to tighten all Bolts.

When tightening the Bolts, tighten sequentially.

Do not tighten any Bolt fully before checking all of tops and legs are kept at the same level and then move on to the next one.

This may cause the frame to warp. If there are still wobbles, loosen the Bolts and execute the same process.

If the Table is not stable it could lead to damage to the product.

Your Table is ready for use.

This Table can only be used on a flat, level surface.
