

LED Patio Umbrella

User Manual

Note: This user manual is generic for different models. Please kindly note that the pattern, color and size might vary accordingly.

Safety Instructions

1. Use the umbrella in a wide-open area.
2. When adjusting or opening the umbrella, make sure that no person is around for safety concerns.
3. Always close and put away the umbrella on windy days.
4. Keep the umbrella away from fire or other heating source.
5. Children are not supposed to operate the umbrella unless sufficient supervision is provided by adult.
6. Always open the umbrella by turning the crank.
7. It is highly recommended that the setup of this umbrella should be carried by at least two people.
8. Turn off the power button and disconnect the solar panel before using the solar panel for charging. To charge, place the solar panel under sun light for 6 to 7 hours. Ensure the sun light is sufficient or the battery in the solar panel is not fully charged.
9. When setting up, opening and closing the umbrella, please use caution to avoid risk of pinching hand.
10. Exercise caution when opening or closing the umbrella to avoid risk of scratching hand.

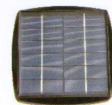

Package Contents

Umbrella Canopy x 1

Extension Pole x 1

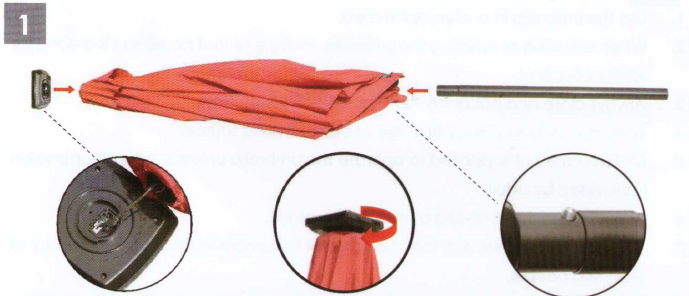

Solar Panel x 1

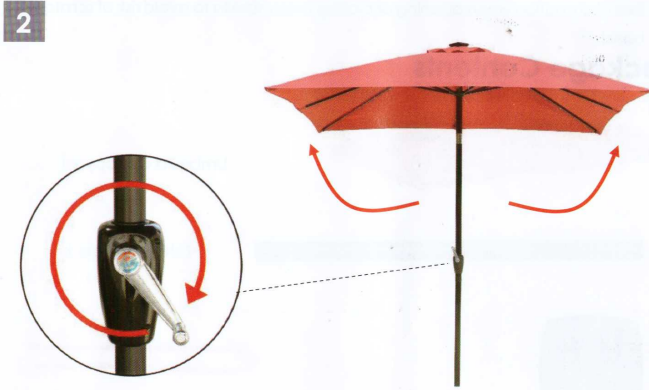

Strap x 1

Setting up the Umbrella

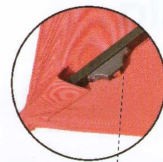

1. Connect the wire of the solar panel to the ones on the top of the canopy. After that, install the solar panel on the top of the canopy and rotate it clockwise to secure.
2. Connect the extension pole to the umbrella canopy. Ensure that the node on the extension pole locks with the corresponding hole.

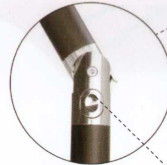

Rotate the crank handle clockwise to open the umbrella.

Changing the Angle & Turning on the Lights

Press this button to turn on the lights.
(Note: When charging under sunlight, turn off the LED lights first.)

Press this button and change angle.

Closing the Umbrella

Use strap to secure.

When the umbrella is not in use, close it and use the strap to secure the closing.
