HANGING INSTRUCTIONS

1. Drill a hole in the wall where the mirror will be mounted.
2. Insert the expansion tube B and screw C into the hole.
3. Tighten the screw C to expand it against the wall, creating a secure anchor.
4. Attach the mirror hanger to the screw.
5. Hang the mirror on the hanger.

NOTE:

1. Ensure the wall material (e.g., concrete, brick) can support the mirror's weight.
2. Use a level to align the mirror horizontally.
