1

Please remove the caps on the end of the poles before assembly.

2

Don't install the B and C parts until all the leaves of the bottom tree (Part A) are unfurled.

During installation, the LED light connector should be aligned on one side.

Note: Unfold all the leaves of the tree in different angles (like a flower opening).

- ① Initially, all the branch tips are compressed toward the center (see Figure 1).
- ② Gently spread the tips outward from the center, ensuring all tips are fully fluffed, as shown in Figure 2.
- ③ Adjust the pinecones and pine needles by hand to create a full, natural look (see Figure 3).
- ④ Repeat steps ② and ③ for all branches and tips on the lower trunk. Once all foliage on the lower section is fully fluffed, continue assembling the remaining sections.

Note: Since the light strings are pre-installed, handle the tree carefully to avoid damaging the wires while adjusting the branches.

During installation, the LED light connector should be aligned on one side.

Note: Continue shaping the tree using the branch bending technique described on the previous page.

Connect all the corresponding plugs.
Insert the bottom plug into a wall outlet to turn the lights on.

Insert plug into a wall outlet.
Press the pedal switch to toggle lights on/off.

NOTE: Branches come spread out and maintain their shape.
Lights are powered through connectors in the pole;
make sure they are properly joined.

CLEANING & STORAGE

- Store this tree in a cool and dry place away from heat and moisture.
- Before putting this tree in storage, do the following:
 - Completely remove all decorations.
 - Clean the tree with a slightly damp cloth and let it dry naturally.
 - Raise all branches to original upright position; make sure not to damage any branches in the process.

After installation, if there are noticeable gaps, you can adjust the orientation of the branches to resolve them.

You have two options to control the lights:

1

LED Controller

2

Remote control

The assembly is fully complete.
The tree is ready to decorate and enjoy!

Installation Completed

REMOTE CONTROL

1.Remove the insulation tab before use.

2.When using the remote control, it must be pointed directly at the LED CONTROLLER for proper signal transmission.

NOTE: The remote has an effective range of up to 13 feet. Be sure to aim the remote at the adapter for optimal performance.
