

Pulley Time Floor Clock 615092

Impart industrial style to your home with the Pulley Time metal grandfather clock. It has a working metal pulley that looks like an old-fashioned hoist and boom, and it's finished in Aged Bronze for an antique style.

Metal Construction: This clock is crafted from durable metal with an Aged Bronze finish for antique flair. It has a working pulley and double-sided clock head that raises and lowers with the hand crank.

Arabic Numerals: Each of the white dials has black Arabic numerals, along with a black minute track and hands. Glass crystal covers the dials and a metal wire mesh cage provides an eye-catching finishing touch. The wire cage is removable, so you can leave it on or display the clock without it.

Makes a Great Gift: Surprise the clock collector on your list with this unique timepiece. It also makes a great gift for birthdays, holidays, and housewarming celebrations.

Quartz Movement: This metal grandfather clock has a quartz movement and requires two AA sized batteries.

Howard Miller: Founded in 1926 and still family-owned in its third generation, Howard Miller is the world's leading clock company and a respected brand name in fine specialty furnishings such as curio cabinets, wine & bar furnishings, custom storage cabinets, and SmartMoves® adjustable height desks.
