

Monochrome breathing key

Power switch

Brightness Increase Button

Heating 1-speed button

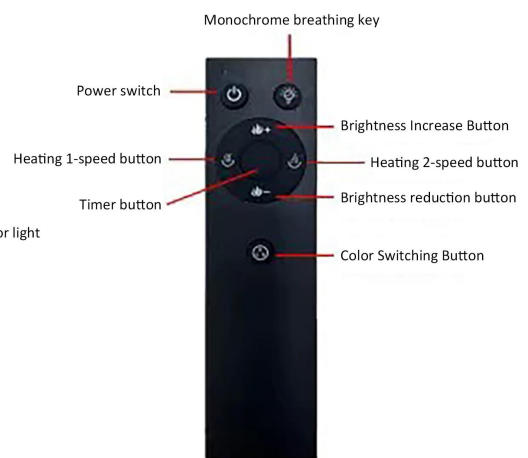

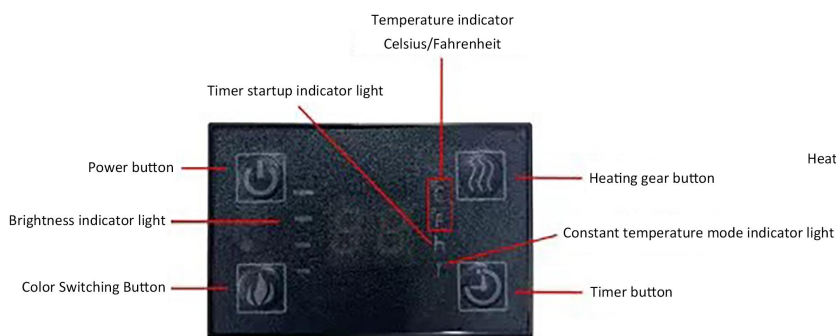

Heating 2-speed button

Timer button

Brightness reduction button

Color Switching Button

Display panel operation

1. [Power Button]:

Press the button to turn on the power. Press it again to turn off the device.

2. [Color Switching Button]:

① RGB Multi-color Program: Just press once and it activates a color mode [This function is not available for the Monochrome Fireplace]

② Monochrome program: Each time the [L4-L3-L2-L1] display buttons are pressed, there is a cycle of 4 brightness levels.

3. [Heating Position Button]:

Pressing the button will display the three modes [HI-H2-OF] for switching. If there is no operation for 3 seconds, it will automatically save and exit the display.

Press and hold the button to enter the constant temperature setting menu. Once the settings are completed, the [constant temperature mode indicator light] will turn on at this time.

The control panel automatically maintains the current room temperature at the set temperature. Press the [Shutdown Button] again to cancel the constant temperature mode.

4. [Timer Button]:

Pressing the button will display the sequence [OF-1h-2h-3h-4h-5h-6h-7h-8h] and cycle through it.

High-end infrared remote control

Remote control operation

The key operations on this remote control are the same as those on the display panel.
