

ASSEMBLY INSTRUCTIONS

ITEM DESCRIPTION:

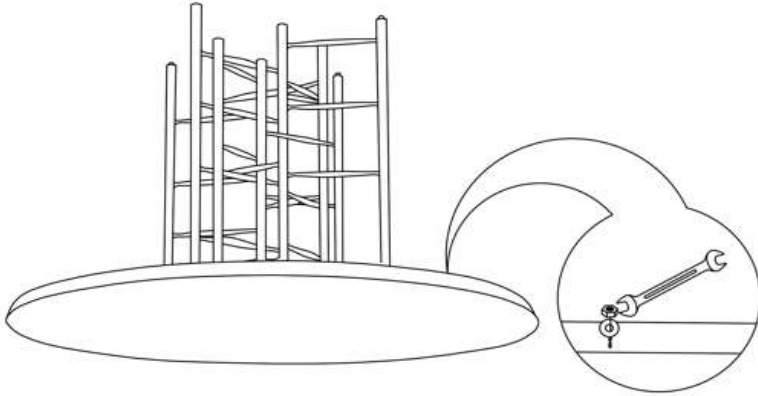

ITEM NO.: FDI05

NAME: Enito Entry Table

MATERIAL TYPE: Iron/Oak

FINISH: Blackened/Smoke

ITEM NET WEIGHT: 137 LBS

TO ASSEMBLE:

1. Place the round wood top upside down on a clean and soft surface to protect the wood.
2. Position the iron base so that it aligns with the round wood top.
3. Ensure that the iron strip attached to the wooden top aligns with the slots or holes on the iron base meant for attachment.
4. For each attachment point where the iron base connects to the iron strip, insert a nut from the bottom side of the wood top.
5. Use the spanner to securely tighten the nuts.
6. With the base now properly attached to the wood top, gently and slowly flip the entire table right side up.
7. Confirm that the table is stable and base is firmly attached to the wooden top.
8. Tighten the screws completely to finish the assembly.

CARE INSTRUCTIONS:

Wipe with a soft, dry cloth. To protect finish, avoid the use of chemicals and household cleaners.
