

MASTER-MARINER CLEANING AND SERVICING

Don't forget! Use your templates to ensure the best placement on your boat or RV, in your garden or in your office. You'll find the hanging kit included in the set box.

IMPORTANT

It is important to follow the instructions on the rear of the twin photo template for the alter-nate methods of installation especially when mounting to Drywall/ plasterboard type walls.

DIRECTIONS FOR CARE

Simple guidelines for care and maintenance:

1. Take great care of your new instruments. A little shine and polish will ensure a lifetime of beautiful use.
2. Never expose your instrument to excessive or prolonged snow, water or direct sunlight.
3. Clean your product by wiping it with a slightly damp cloth and then polish with the microfiber cloth supplied.
4. Further information is available at Master-Mariner.com
5. If you have purchased our Windlass Gift Set you will see there is a blue ring in the sidewall separating the front bezel from the rear case. It should not be assumed that the product can be taken apart at this point. Any attempt to do so will break adhesive seals and invalidate your warranty.
