

1. Don't tighten the screws. Connect the middle two trays to the side bracket with screws.

2. Don't tighten the screws. Connect the middle two trays with screws.

Two pieces of side bracket

Six pallets

Four brake pulleys

A package of screw accessories

3. Don't tighten the screws.
Connect the bottom two
trays with screws.

4. Then tighten the screws in turn.
Make sure the four legs of the flower rack
are in the same horizontal position.
Then put the flower rack on the flat ground.

5. Don't screw too tightly so that the
height can be adjusted.
Turn the flower rack upside down
and install the pulleys.

6. The installation is completed.
