

## Description

Do you want an **environmentally friendly**, energy-saving garden light? Then you can't miss this solar garden light from us. This garden light is made of high-quality aluminum and glass, which is strong and durable. This garden light uses solar energy to convert into light energy, so it is **environmentally friendly** and energy-saving.

## Key Features

**Energy-saving Light:** The solar garden light is charged with solar energy, you don't need to connect an external power supply for it anymore. The solar lamp absorbs solar energy during the day and stores it in the nickel-hydrogen battery, then it can be illuminated at night.

**Waterproof and Dustproof:** The solar garden light has a protection level of IP55, which can protect the light from water and dust.

**High-quality Material:** The solar garden light is made of high-quality aluminum metal and glass, which is strong and durable.

**Environmental Protection:** The solar garden light uses solar energy to emit light. Compared with electric energy, solar energy is more **environmentally friendly** and **pollution-free**.

**Wide Application:** This solar garden light is widely used in lawn, garden, courtyard, balcony, walkway, etc. Its **waterproof** feature makes it help you light up even on rainy days.

**Exquisite Appearance:** This solar garden light is made of high-quality brown aluminum metal and glass, so its appearance is exquisite and noble. The transparent lampshade makes the light source brighter and more natural.

**Two Colors:** This garden light has two colors of warm light and white light. Compared with the single-color light, this light gives you one more choice.

**Easy Installation:** This solar garden light does not require wiring or an external power supply for installation. You can easily install it where you like.

**Customer Service:** We aim to provide quality products and services. If you have any problems, please feel free to contact us. We will reply and solve the problem for you as soon as possible.

## Details

**Iron Screws:** The solar garden lights' screws are made of iron, which is strong and durable.

**Widened Hexagonal Base:** The base of this solar garden light has been widened. The base has fixable screw holes to make the garden light more stable.

## Application

This solar garden light can be widely used for lighting in courtyards, lawns, balconies, and other places. It can be used even on rainy days outdoors.

## Specification

Material: Aluminum and Glass

Color: Bronze

Rated Power: 1 W  
Protection Class: IP55  
Brightness: 6000 lumens  
Light Emitting Parts: Transparent Glass  
Solar Parameters Voltage: 2.4V  
Sunshine Time:6-8 (h)  
Light Source: LED  
Sensing Distance: About 3-5m<sup>2</sup>/32.29-53.81ft<sup>2</sup>  
Solar Panels: 1W  
Power: 2200MAh Nickel-metal Hydride Batteries  
Product Size: 23\*14\*40cm /9.05\*5.51\*15.74in  
Package Size: 29 \*26 \* 47cm/11.41\*10.23\*18.50in  
Switch Adjustment: White Light›Turn Off the Light›Warm Light (Swipe Left, Middle, and Right)

### **Package Included**

2\*Solar Lamps  
2\*2200mah Nickel-metal Hydride Batteries  
4\*Screws  
4\*Nuts

### **Notes**

1. The Nickel-metal hydride batteries can work on rainy days and nights.
2. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement. Please make sure you do not mind before you order.
