

## REGINA ANDREW UNO FITTED LAMP

UNO fitters simplify bulb replacement and shade adjustments. The shades install between the bulb and the light socket which allows you to replace your components with ease.

- |          |                                                           |
|----------|-----------------------------------------------------------|
| <b>1</b> | Unscrew the socket ring on the socket.                    |
| <b>2</b> | Place the lamp shade on the socket.                       |
| <b>3</b> | Tighten the socket ring on the socket & install the bulb. |
