- Available Wattage: 15W
- Color Temperature Available: 3000K & 5000K
- Luminous Available: 700 Lumens
- Beam angle: 120°
- Lifespan: 50,000 hours
- Voltage: 120V
- 4-inch LED Eyeball Dimmable Downlight
- ETL, Energy star
- 5 years warranty

the 4-inch LED eyeball dimmable downlight of 10W available in 3000K and 5000K color temperatures helps beam angle adjustment (the beam angle being 100-degree) like the movement of an eyeball thus allowing for light to be distributed in areas where it is required the most. A CRI of 90+ means the excellent color rendering of objects and surfaces by this downlight when they appear as natural as they would in natural light.

SPECIFICATION

MPN	Wattage	Voltage	Lumens	CCT	Beam Angle	CRI
DW011	10	120V	700	3000k 5000k	120°	>90

MODEL VARIATION

- Nowhere you will find any dark spot when using this dimmable LED downlight in its full non-dimming mode. The light distribution is uniform and even with the light spread at a wider beam angle.
- The dimmable LED downlight utilizes a wide beam angle of 120-degree to illuminate large spaces when your objective is to have a non-directional light. The distribution of light is in such a way that no specific objects are highlighted and rather the light distribution is uniform and even.

WARNING AND CAUTIONS

- The product must be installed according to the instructions. Installed by a person familiar with the product, production and product hazards.
- Avoid fire and electric shock. When installing the lighting fixtures, you need to understand the electrical characteristics. If you are not sure, do not attempt to install. Please contact an electrician.
- Understand the structural features and dimensions of lighting before installation.
