# Step 14-1

How do I get the two doors to align flat by adjusting the hinges?

1. The screws can be loosened to adjust the uneven problem under the table top.

2. Adjust the screws shown in Fig. 2 and pull the door back and forth so that it can be opened smoothly.

3. Adjust the screws shown in Figure 3 to adjust the door left and right to the right position.

# Step 15

Attach Board 17 neatly to the Velcro of iron 20 and 21 (Attention: Please fully stretch part 4 and then stick it tightly along the Velcro to avoid gaps that affect the appearance. If there are obvious gaps, tear them off and stick them again.)

# Step 25

Two people work together to move the table.  
Make sure you lift it off the ground.  
Don't push and pull.
