Mirror light installation
and adjustment video

This is the unified installation manual for the SVV dressing table, suitable for three versions: simple, basic, and luxury.

Simple version: There is no mirror light, built-in socket or hair dryer stand function. So there is no mirror light power plug, built-in socket or hairdryer bracket in the accessories.

Basic version: With mirror light function, without built-in socket or hair dryer stand function. Therefore, there is no built-in socket or hair dryer bracket in the accessories.

Luxury version: With mirror light, built-in socket, and hair dryer stand function.

Also note that:

1, Screw L is a drawer positioning pin that prevents the drawer from falling off when open. After installation, please confirm that all positioning screws L have been installed.

2, For luxury version, part 12 has rectangular hole for installing build-in socket, and part 3 has mirror light; For basic version, part 12 does not have rectangular hole for installing socket, but part 12 has mirror light; For simple version, part 12 does not have rectangular hole for installing build-in socket, part 31 does not have mirror light.

1. Screw installation method

When the screw is installed, please keep it in line with the board, and do not tighten it too tightly

2. Check the Nut direction

This direction of the marked nut is consistent with the direction in which the screw is inserted

3. Installation on the board with fixing screws

3. Rotate slowly until it stops
