

Swing Chair Installation Steps

open the base package. (the accessories are put inside the pipe)

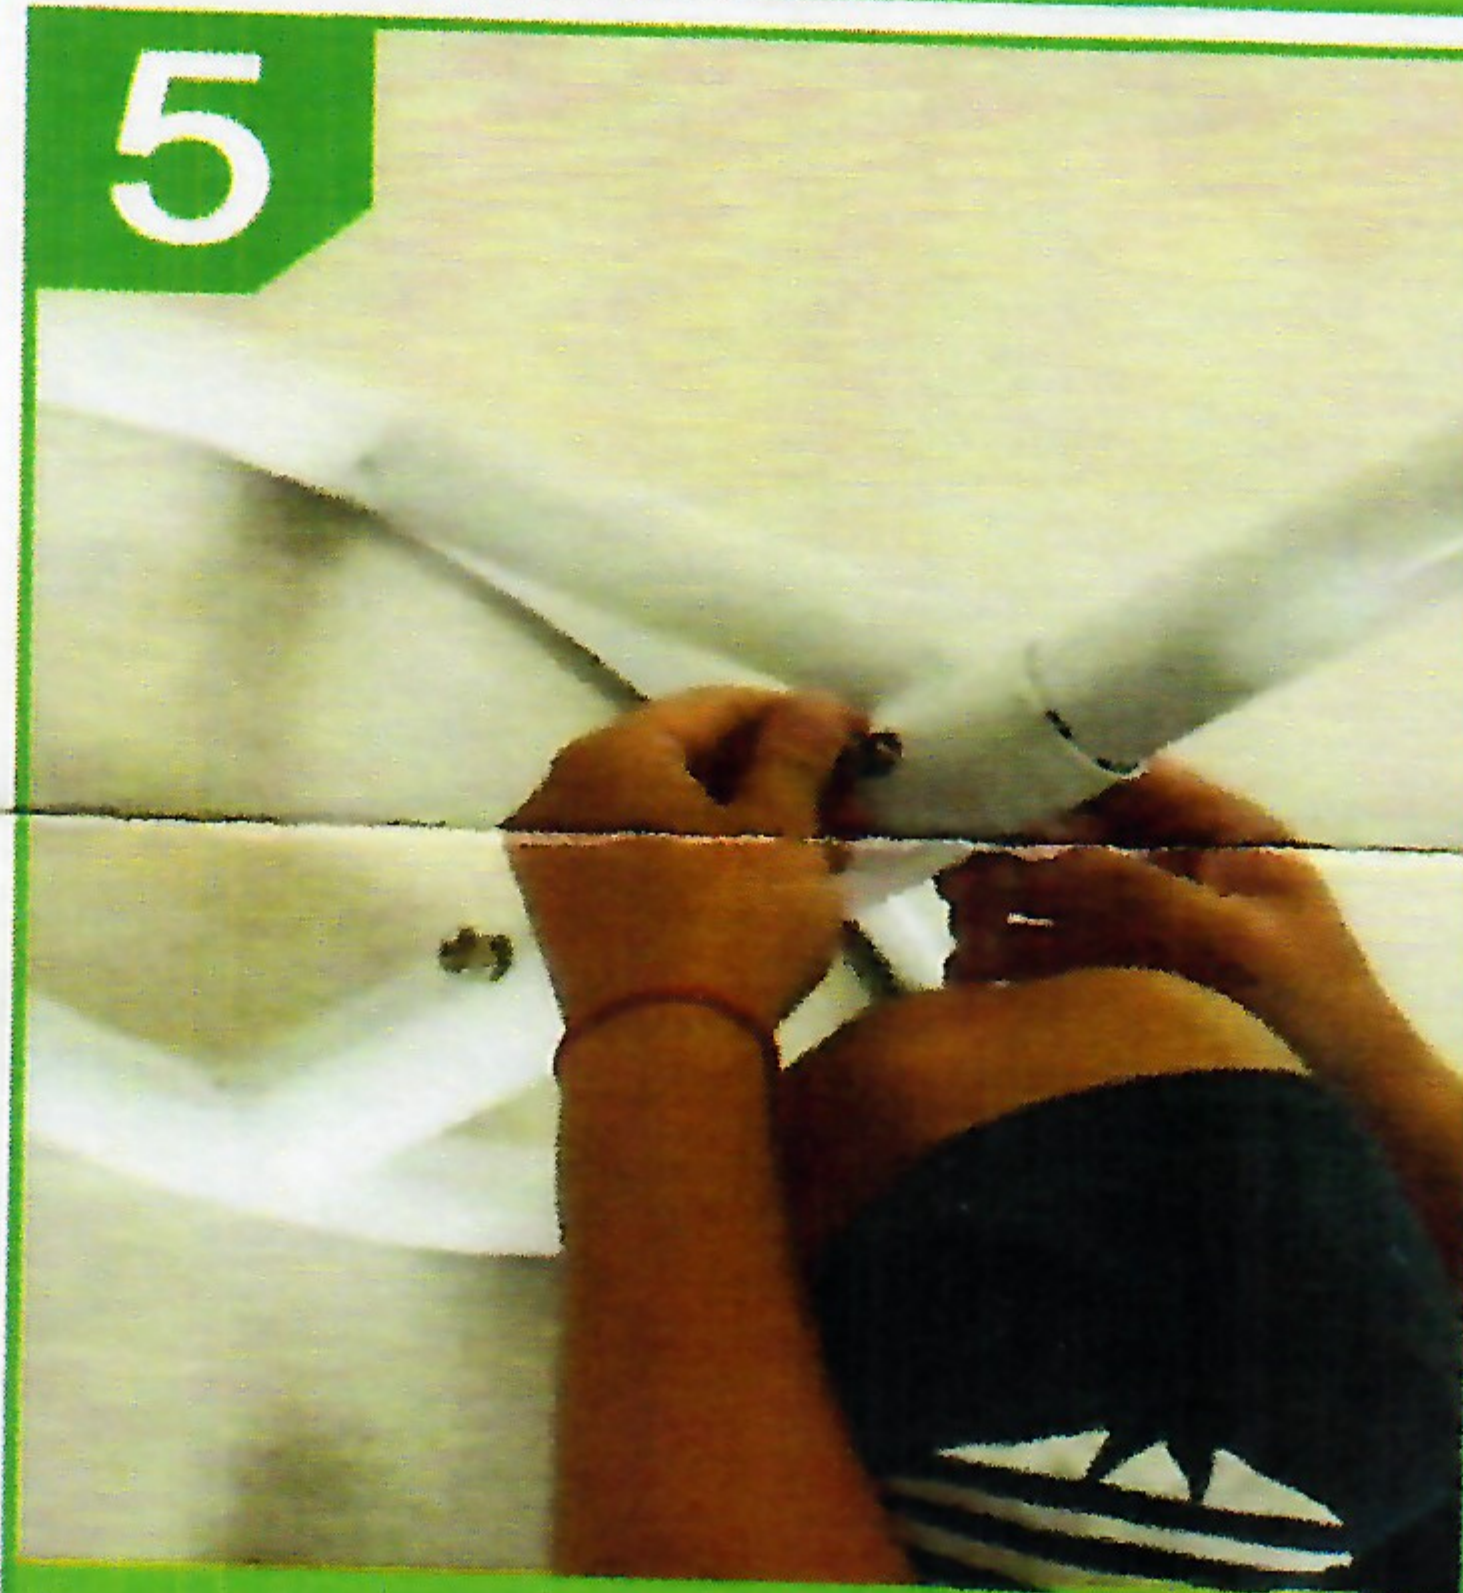

Rotate the screws to get the accessories out.

NOTE: put the base pipe upside down to pour out the other accessories.

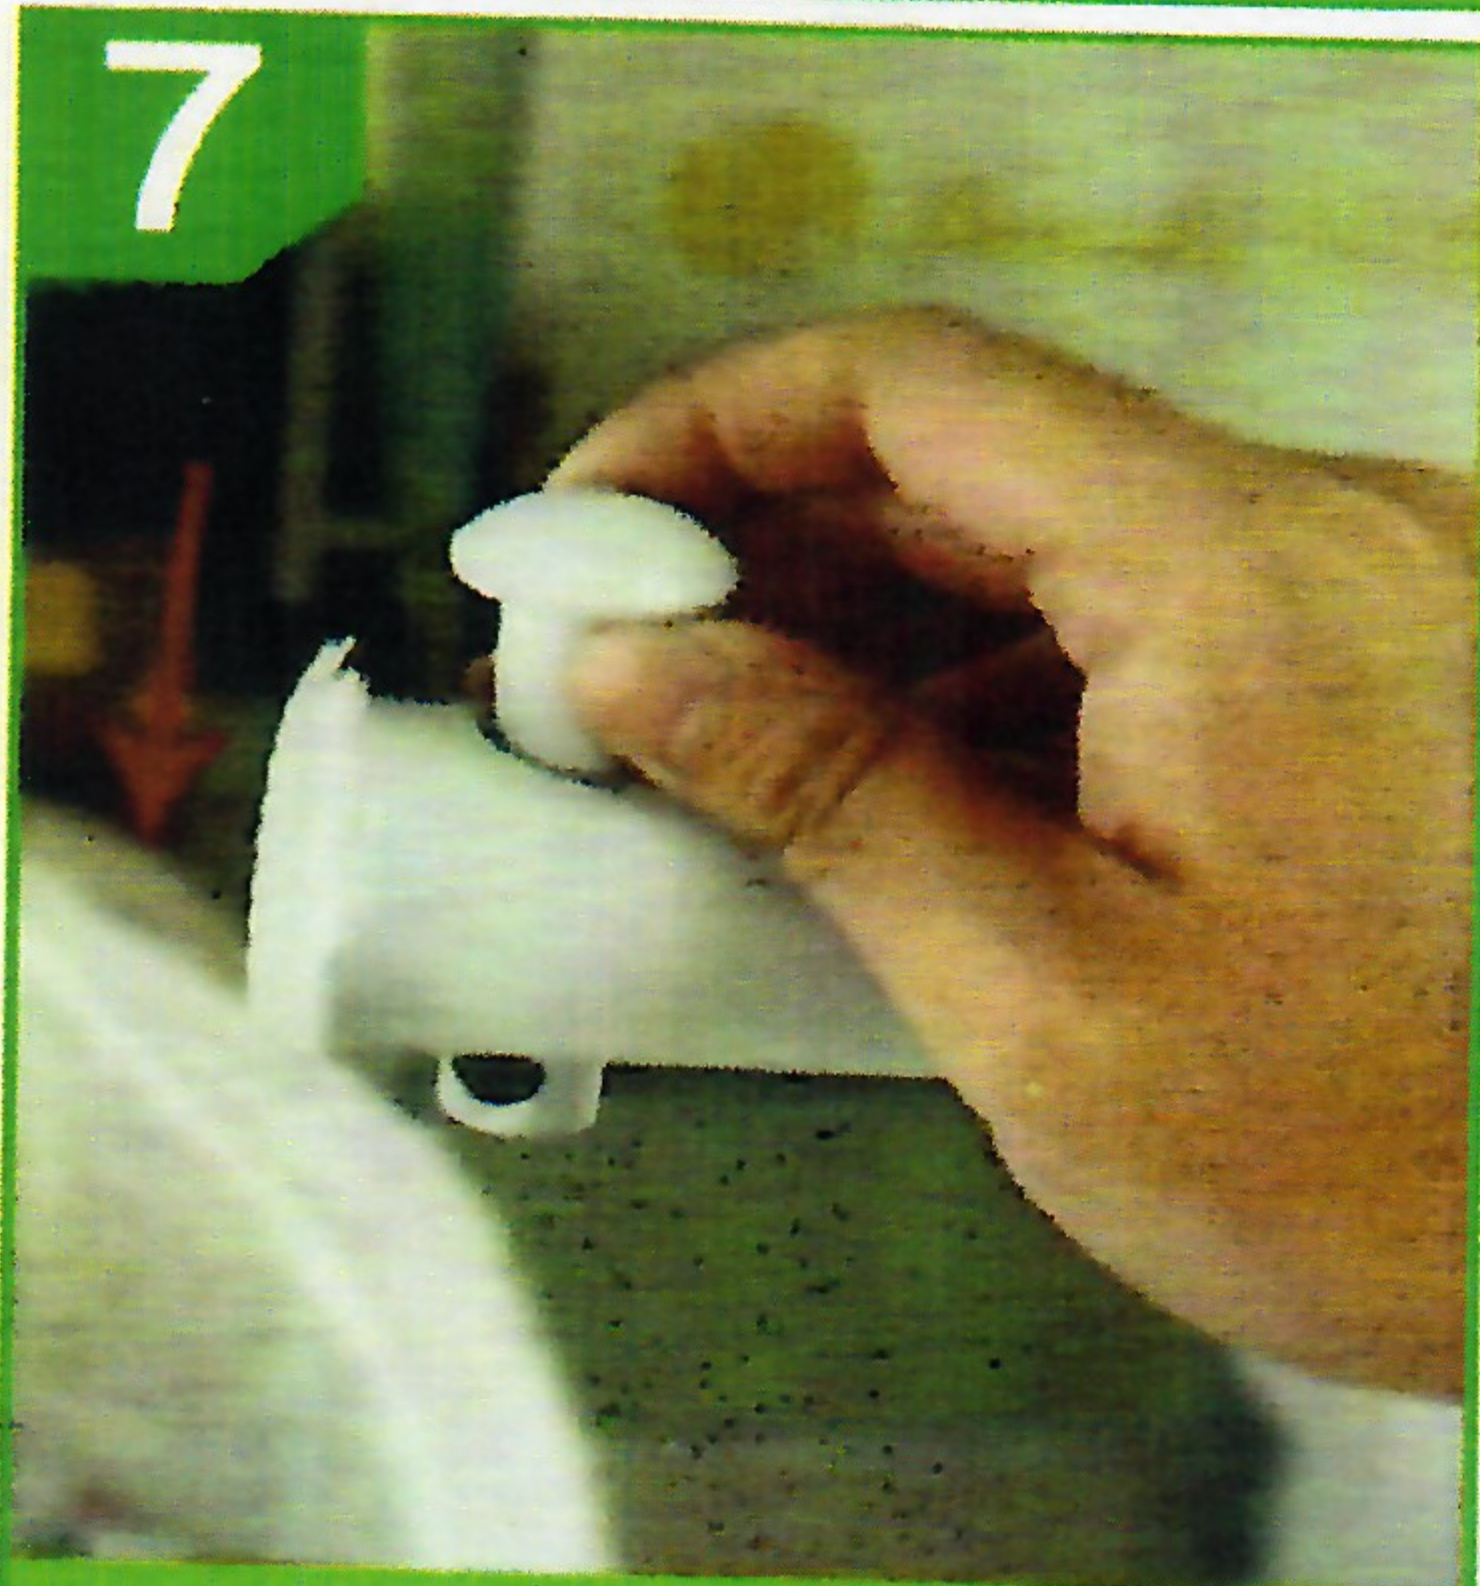

insert the swing bar into the base pipe.

rotate the screws up.

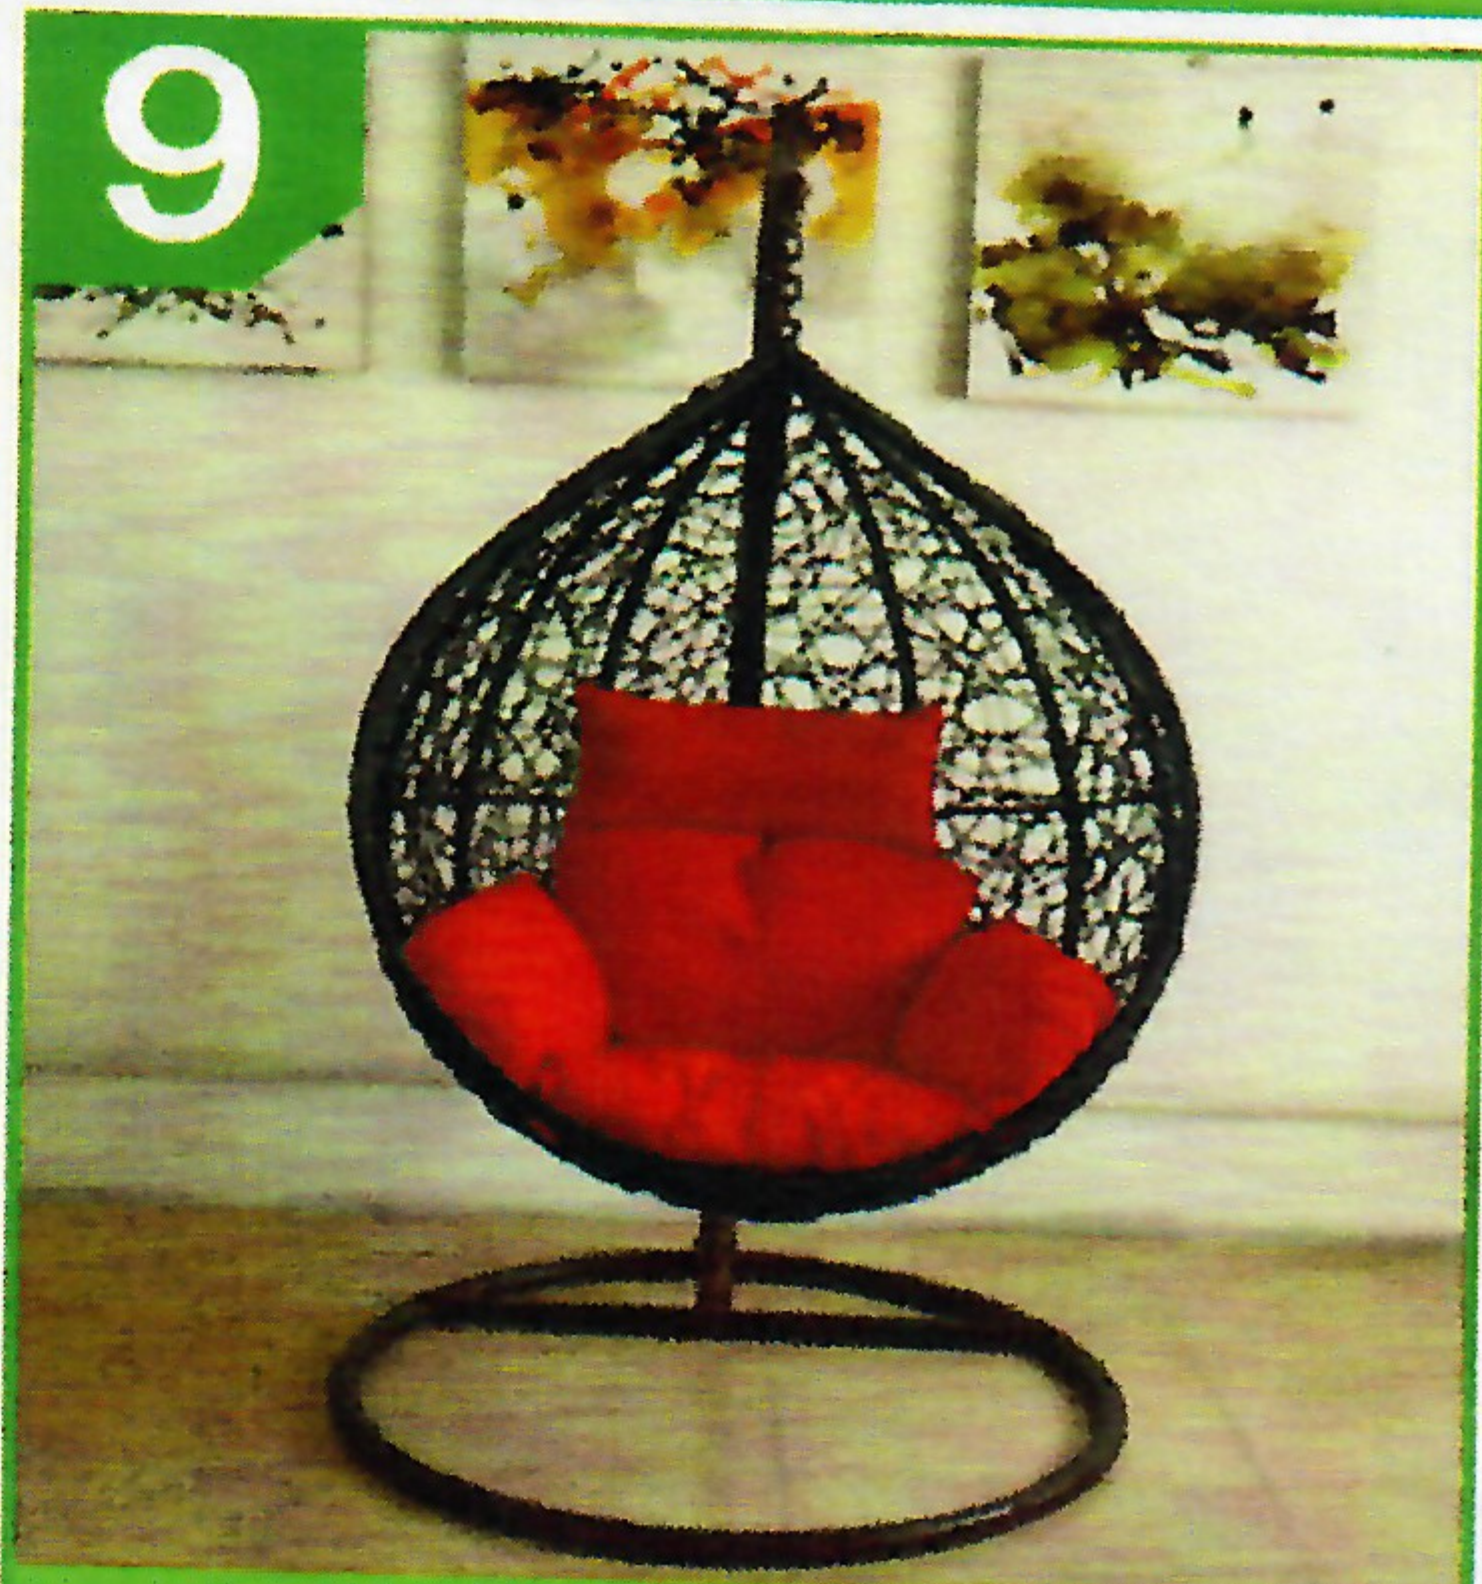

adjust the screws per necessary, screw them tight.

insert the spring bolt into the top bar hole.

connect the spring bolt with the hanging bar.

hang up the swing chair, the installation is done.
