

# Assembly & Installation Instructions

## PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

## IMPORTANT:

1. **WARNING** - Disconnect power before relamping or wiring the fixture. Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

## INSTALLATION STEPS:

- A. Secure the mounting bracket to the junction box with the machine screws.
- B. Connect the wires using wire connectors as follows:  
Connect the **BLACK** wire of the main wire to the **LIVE** wire.  
Connect the **WHITE** wire to the **NEUTRAL** wire.  
Secure the fixture ground wire and external ground wire with green screws.  
Note: Pay attention that the bare wire can not be exposed to prevent leakage of electricity.
- C. Fix the ceiling plate to the mounting bracket with screws.
- D. Secure the glass lampshade to the lamp holder with the lamp shade ring.
- E. Install the bulb (**NOT** included) onto the socket as indicated.
