Chafing dish instruction

1. Open the folding stand

2. Put on pan stand and lock with screws.

3. Place 2 standard 7 OZ-207 ml canned chafing gel fuel capsules into the fuel holder and place on the pan stand.

4. Put on water pan. Pour water to water pan. Then Put on food pan.

5. Install the handle on lid with screws.

Important safety measures

1. Once food, water or chafing fuel has been placed within the chafing dish, do not move or transport the entire set by just the handles of the stand. Remove each element separately.
2. Do not allow burners to continue burning if all water has evaporated from the water pan or once the food pan is empty.
