

The PLJW 121 under cabinet range hood is efficient and low-profile, providing you with beauty and function in the kitchen. The 121 was built for heavy use with durable 430 brushed stainless steel. It gives the hood a modern look and will keep it running smoothly for years. The control panel in the front of the hood features stainless steel push buttons which are really easy to access while cooking. You can adjust the blower speed and turn on your LED lights with the push of a button. The LED lights last thousands of hours and provide you with more than enough light to cook efficiently. Finally, dishwasher-safe baffle filters make your job easier in the kitchen. The dishwasher works for you so you'll have one less thing to do while cooking. Take the filters out approximately every month for the best clean. You'll love your PLJW 121 under cabinet range hood.
