## CARE AND MAINTENANCE

---

### OUTDOOR FURNITURE CARE

Store outdoor furniture indoors or cover well when not in use. Remove wooden furniture from standing water. Dust regularly with small brush or vacuum. Spills should be taken care of immediately before they harden or stain with a slightly dampened sponge.

### UPHOLSTERY CARE

To prevent overall soiling, frequent vacuuming or light brushing is recommended. Cushions and pillows should be turned on a weekly basis.

Down-filled cushions should be brushed rather than vacuumed. Spot clean, using a mild water-free solvent or dry cleaning product. Only a professional cleaner should undertake a complete overall cleaning.

The use of steam or water-based cleaners may cause excessive shrinking or staining.
