

IV. Notes

1. The machine lid has a protective device, if the top head is not covered correctly and completely, the machine will not be able to start.
2. Please place on an even surface. If it is placed on an uneven surface the vibrations may be annoying.
3. The height of the ice in the trough should reach 1cm below the red line.
4. Please clean the trough after use.
5. Please do not touch the blade to prevent yourself from getting hurt.
6. Do not dismantle the machine for cleaning.
