Anti stick paper

Gluing surface

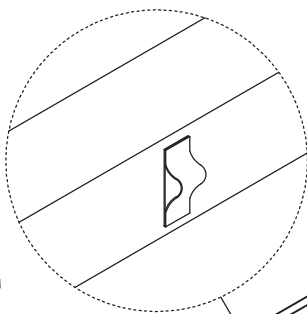

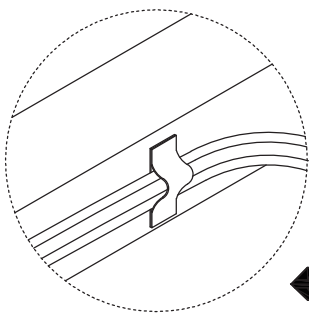

When the wires are disordered, tear off the anti stick paper, paste it on the place where the wires pass, and then bind the wires.

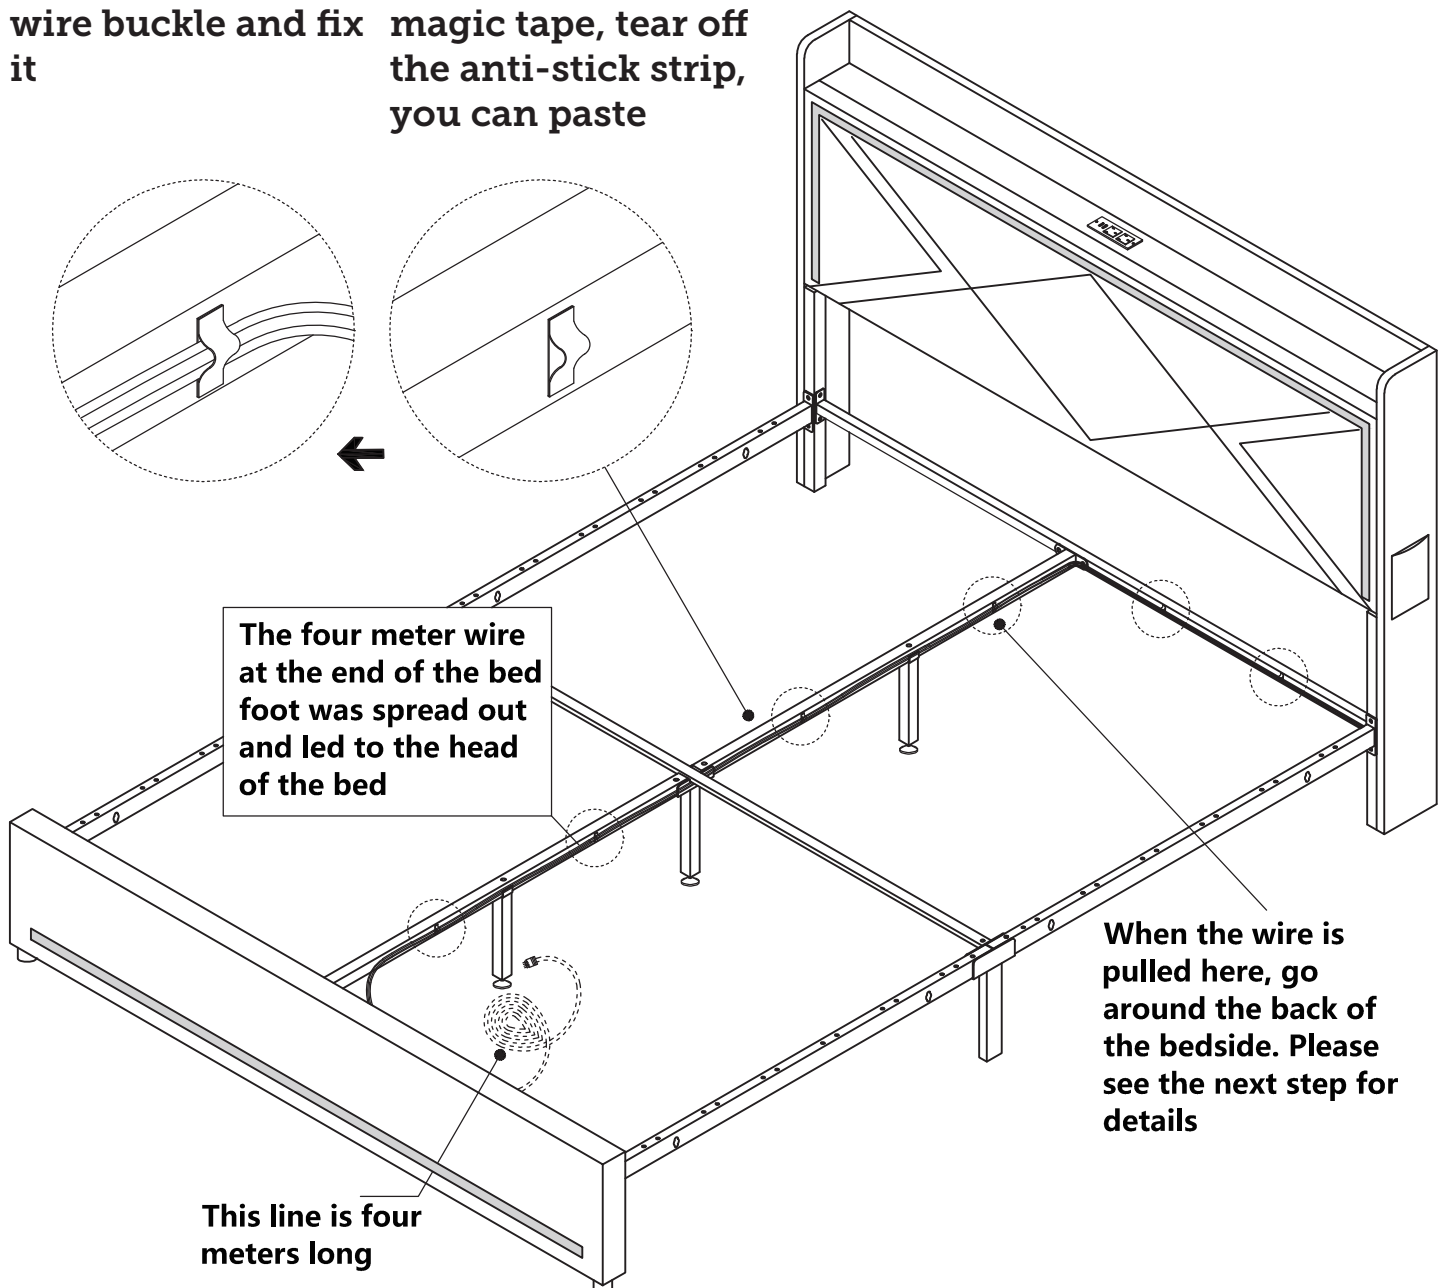

Put the four meter long wire along the back of the Strap wire buckle and fix it

There is glue on the back of the Strap magic tape, tear off the anti-stick strip, you can paste

The four meter wire at the end of the bed foot was spread out and led to the head of the bed

When the wire is pulled here, go around the back of the bedside. Please see the next step for details

This line is four meters long

There is a USB female port on the socket. Please plug the USB plug with power cord into this USB female port

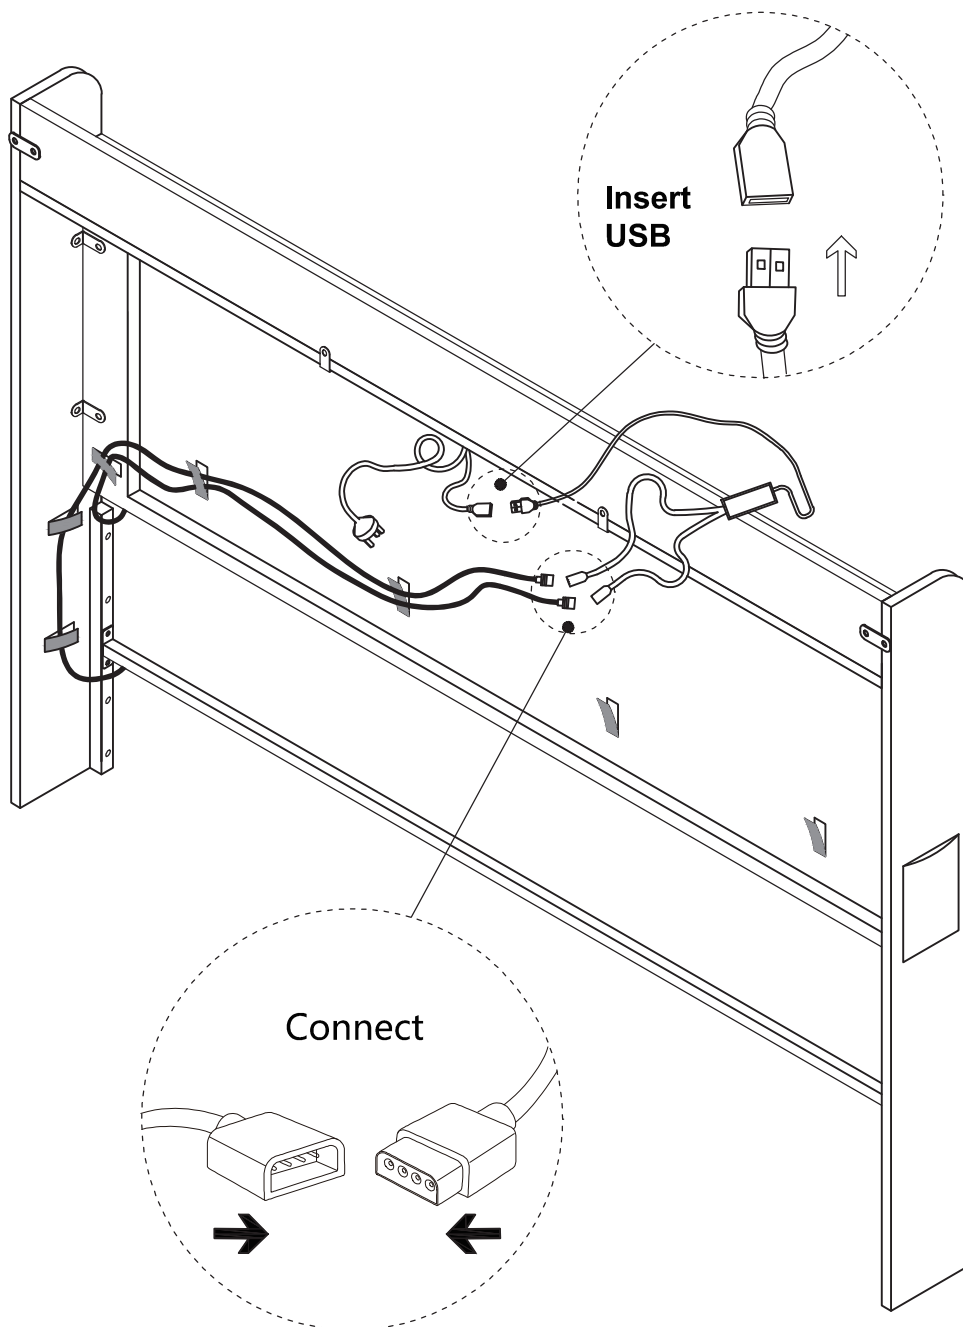

You can use the remote control to control the color

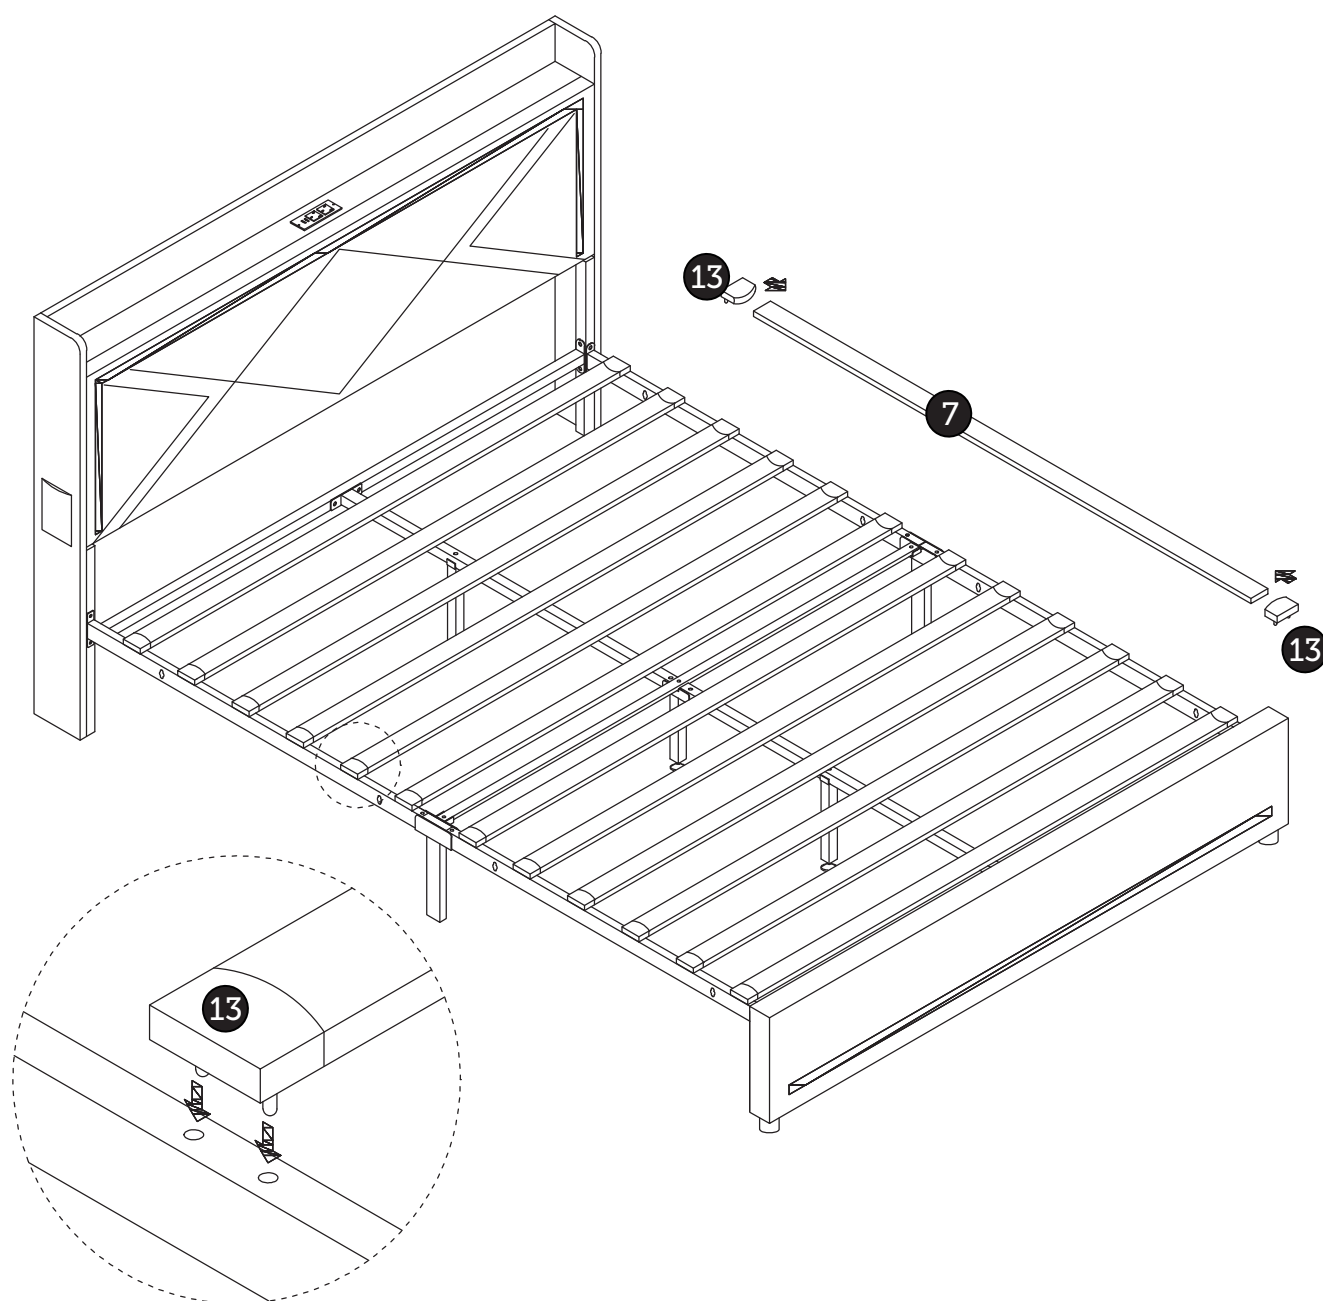

**1PC**

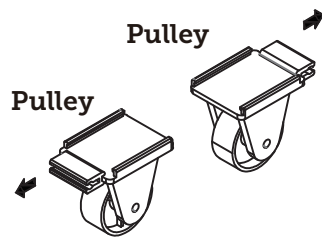

**Remote control**

**The plug of the USB socket must be connected to the power supply before it can be used !!!**

**After connecting all the lines, sort them out and clip them into the harness Magic Band**

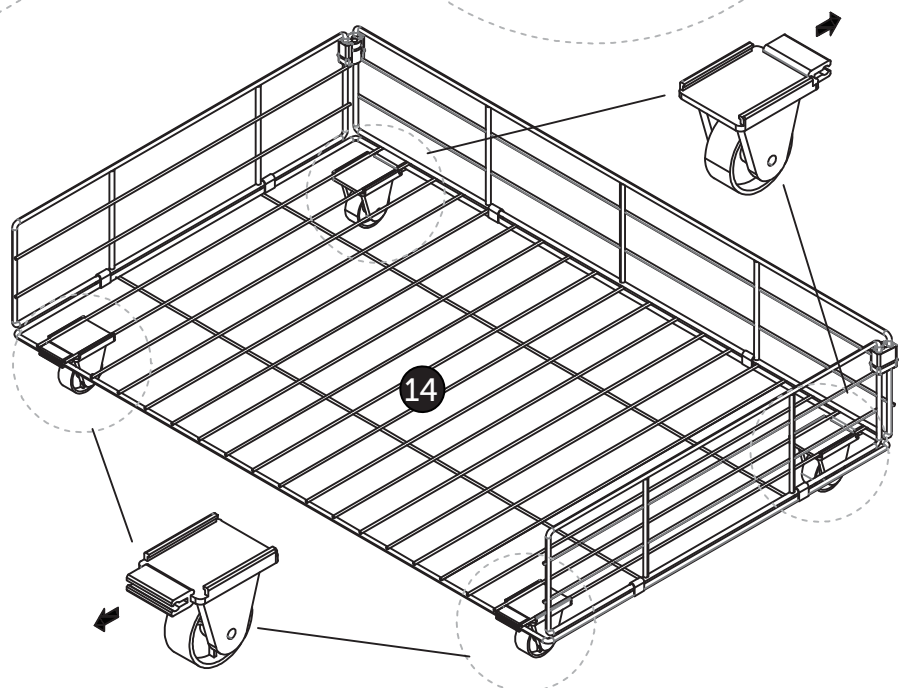

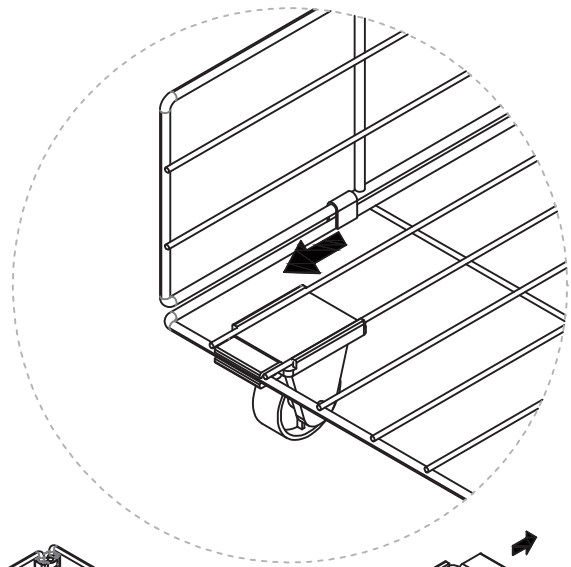

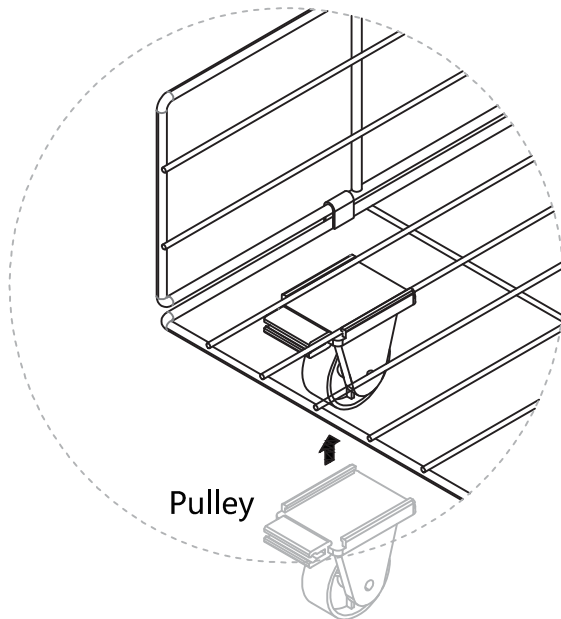

**Pay attention to the orientation before clamping in!**

**Please note that this drawer base (14) has front and back sides! please see the instructions clearly before assembling!!!**

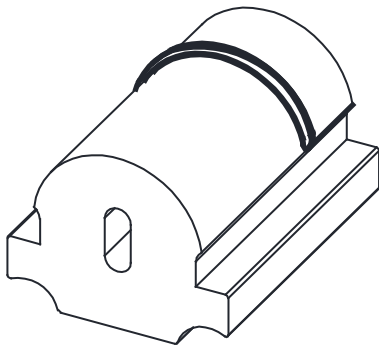

**As shown in the figure Clip the pulley into position first**

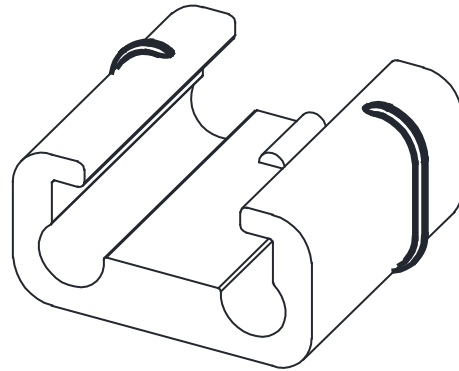

**Then push the pulley to the side  
At the same time, clamp the iron wire at the edge. It takes a little strength**

22

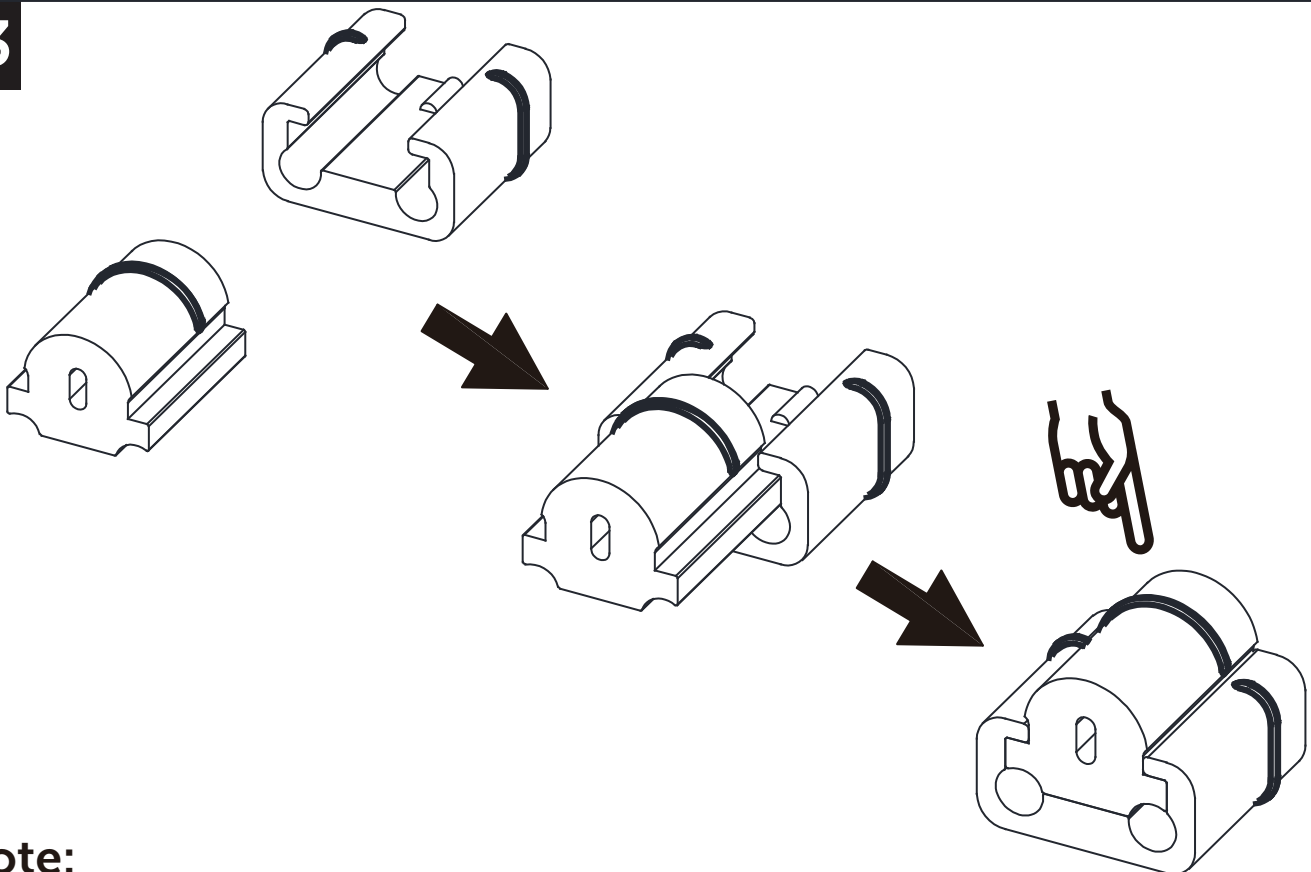

plastic buckle(A)

plastic buckle(B)

**Note that when you do this correctly,  
the darker colored lines on A and B should  
be facing the same direction**

23

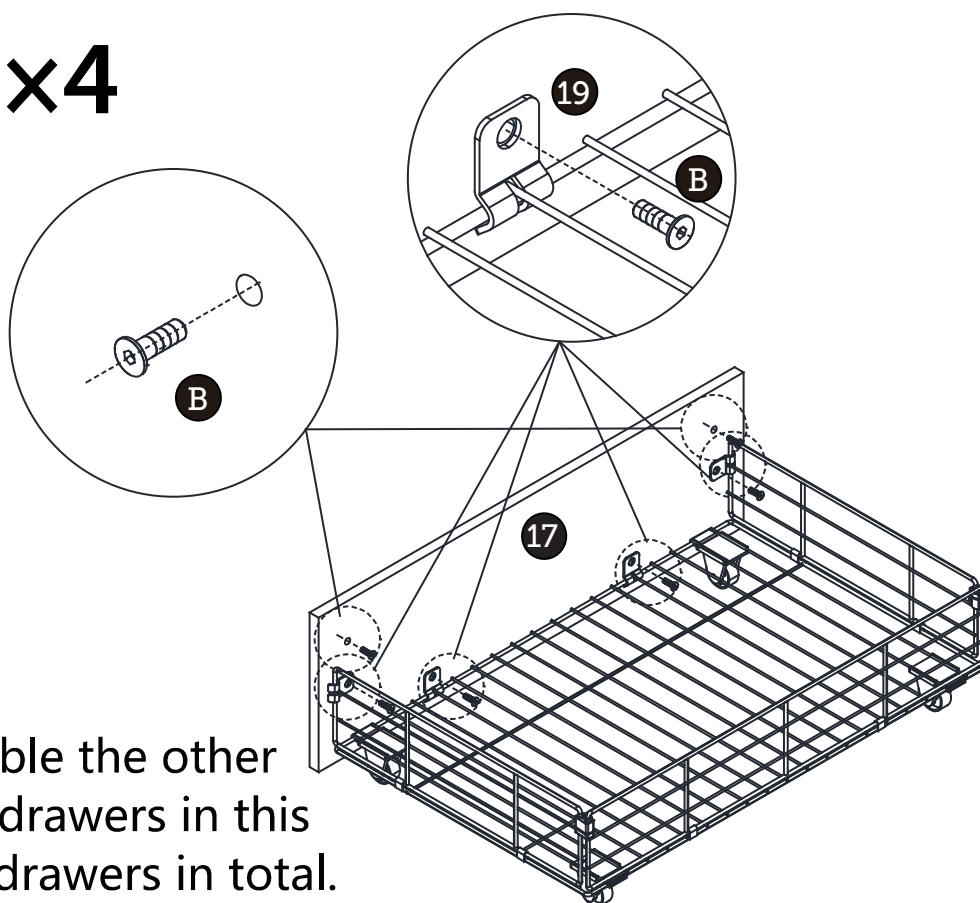

**Note:**

**This step is just to let you know how to put A and B together  
You may need this in the next steps on**

24

x4

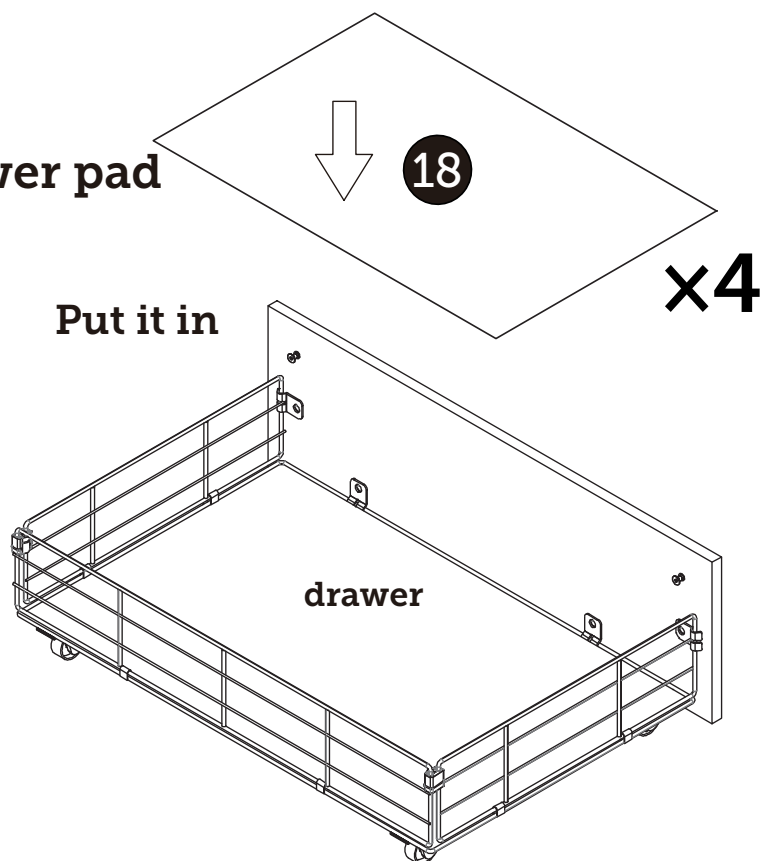

**B** M8x15  
x6

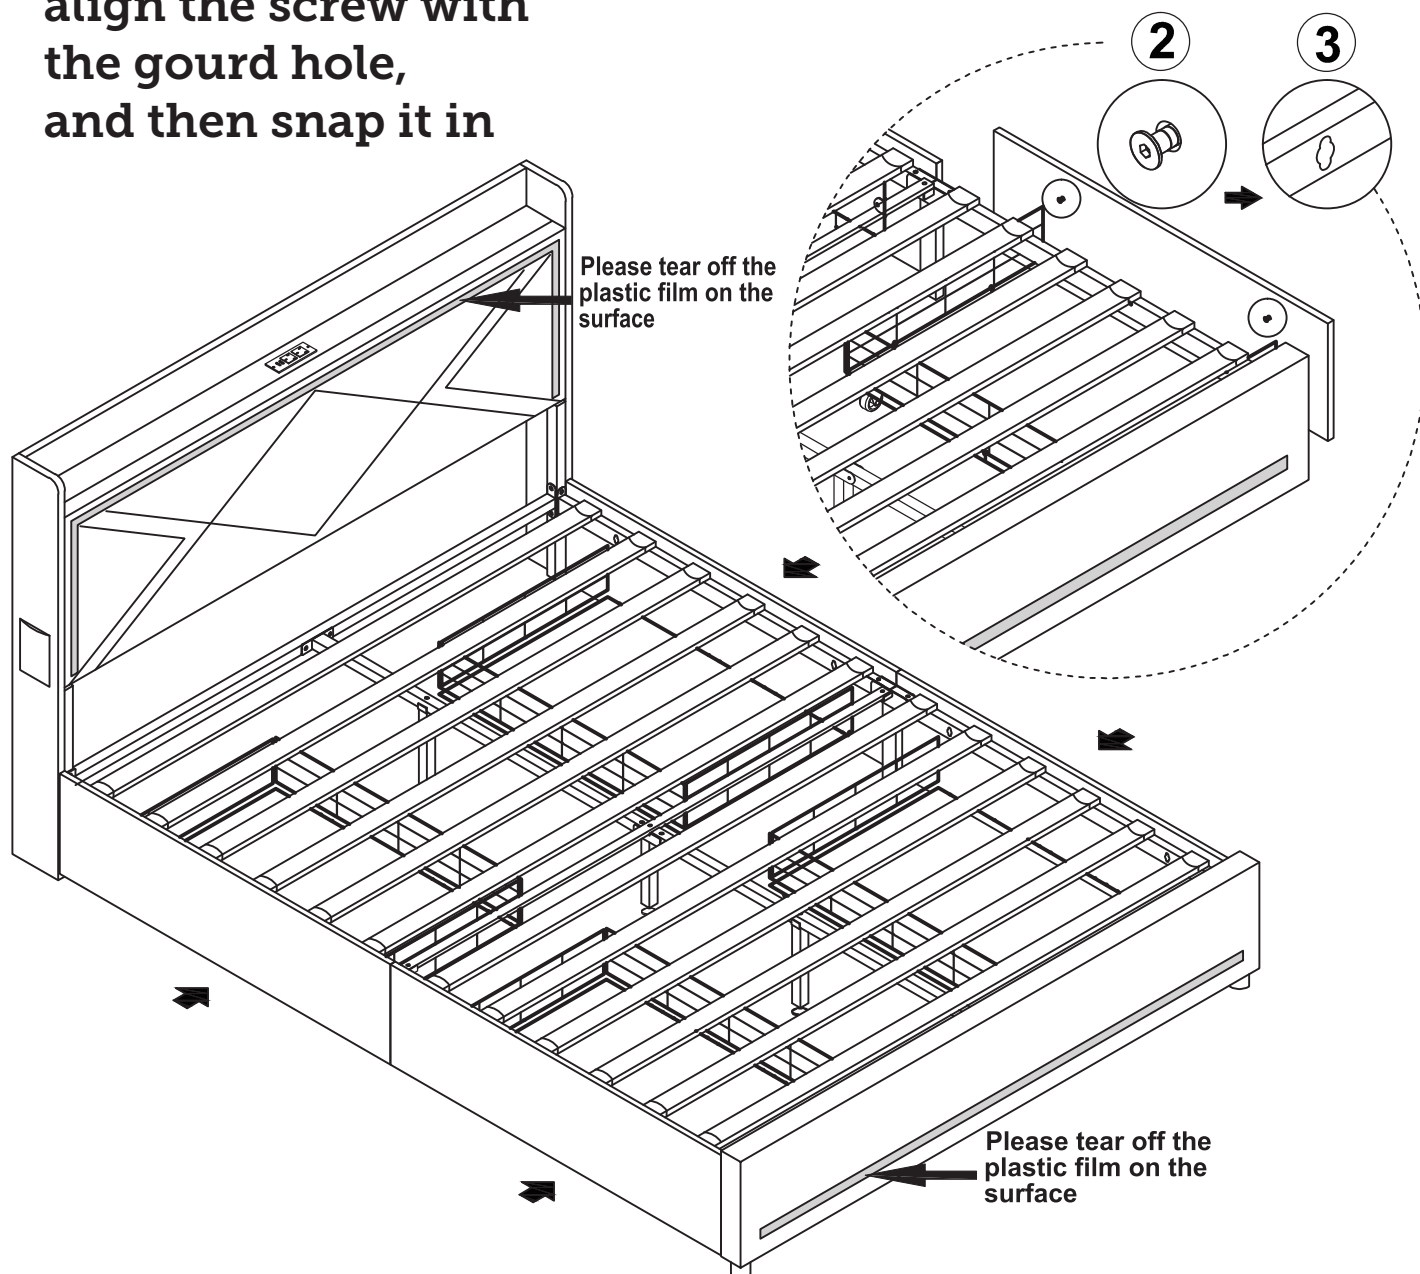

Assemble the other three drawers in this way. 4 drawers in total.

25

You must put the drawer pad (18) in the drawer

1. This screw must be turned out slightly, leaving a distance of 2-3 mm
2. Gently lift the drawer, align the screw with the gourd hole, and then snap it in

When pulling out the drawer,  
Lift the drawer gently,  
Align the screw with the gourd hole, and then pull it out
