TIPS

1. When installing the product, use a soft surface (such as carpet or cardboard) to avoid scratching or damaging the surface of the product.
2. Please try to use a manual screwdriver instead of electric screw driver. A manual screwdriver can be used to better control the tightness of the screws.
3. Do not use any glue.
4. The product is unstable before it is assembled. Please pay attention to the product installation sequence, and align all screws and screw holes before tightening.
5. The structure of this product can not meet the requirements of children climbing.
6. We suggest it is faster and easier to install with an electric drill. 2 People are recommended when you install.

PANEL LAYOUT

Due to the large number of parts, in order to facilitate installation, please place the parts in order after opening the package and then start the installation.
