ASSEMBLY AND INSTALLATION INSTRUCTIONS

Rack Assembly

- 1) If your rack is plated it is best to keep the tissue on during installation to avoid fingerprinting.
- 2) Attach the arm to the rack body using the button head screw and wrench provided.
- 3) We recommend that you anchor your rack into the solid wood wall stud. Carefully measure the area where the rack is to be hung and install the ceiling screw hooks directly into the wood joists. If it is not convenient to hang your rack directly into wood joists you may use the included DRYWALL anchors enclosed with your rack. See Toggler® brand manufacturer recommendations for weight limits included in the instructions in the Toggler kit.
- 4) Your rack is now ready to use. Distribute your cookware uniformly around the rack.

WARNING: It is important that your wall rack is assembled correctly. If the unit is assembled or used incorrectly, it could become unstable and collapse, possibly causing injury.
