MAINTENANCE PLAN

Weekly: Visual check of the general condition of the table, removing dirt and ensuring there are no broken parts or damage that could be a danger to users.

Monthly: Check the structural strength and stability.

Wintering and storage: Clean with soapy water and a soft cloth. Remove damp stains, sand and seawater. Store vertically in a dry place in stacks of 10 units.

- If the product is subject to heavy use, maintenance checks must be carried out more frequently.
- Do not use the product until maintenance is completed.
- Do not use aggressive chemicals to clean the table. Always use products with a neutral PH.
- Use a soft cloth to clean the table.
