

# ARTLESS WRITING UNIT Assembly

**1-** Find the space in which your Writing Unit will be placed in your home/office and bring all 4 parts to that area. Drawer Unit, Main Rectangular Section, and both legs.

**2-** Slide both legs into their corresponding cleat on the Main Rectangular section of the Writing Unit.

**3-** Rest the Main Rectangular section on the two legs you just assembled and lift the desk slightly from the opposite end of the two legs, while sliding in the Drawer Unit to its approximate location. The Drawer Unit has a cut-out ring on its Surface that will align with a circular cut-out that is below the main section. Once those two pieces are aligned, rest them in to each other and you are done.
