NOTES:

When assembling the beam:

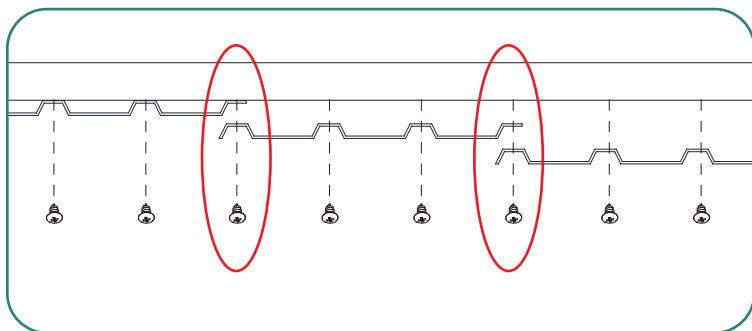

1. Make sure parts (7B, 7F, 8L, 8, 8R) have the sides with closely spaced holes facing outward, and the sides with widely spaced holes facing upward.
2. Ensure parts (6L, 6, 6R) have the sides with rectangular latch lock slot facing downward. Part 6L should be on the left side and part 6R on the right.

To improve the wind resistance, please be sure to complete this installation step. If expansion bolts or ground stakes are not installed, strong winds may cause the tool shed to collapse. Expansion bolts are crucial for the stability on concrete surfaces, and ground stakes are used for grassy areas. The accessory package includes the ground stake components, but the expansion bolts are not included.
