

Smart Home Bathroom Accessories: The toothbrush holders for bathrooms feature automatic sensing and intelligent cruising disinfection technology. Simply place your cups in the holder, and the toothbrush sanitizer will activate automatically. It's perfect as a self-care gift for women.

Powerful UV Disinfection: The toothbrush sanitizer and holder utilizes advanced UVC+UVA dual-band technology to achieve a disinfection rate of up to 99.99%. This uv toothbrush sanitizer effectively eliminates bacteria, ensuring your toothbrush is clean and hygienic.

Easy to Use: The toothbrush holders interact with you through an enchanting breathing light. When charging, it displays a red light, and when fully charged, it shows a green light. During operation, the light breathes in blue, while a blue light blinking 10 times indicates the need for charging. The toothpaste pusher is detachable for easy to clean.

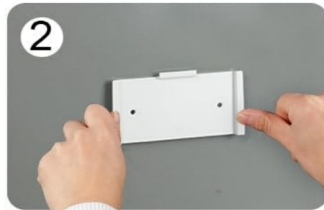

Large Capacity: The multifunctional toothbrush holder includes 3 stylish mouthwash cups and a toothpaste dispenser, making it perfect for the whole family. With six toothbrush slots, it can meet the needs of your entire household. Elevate your bathroom experience with this smart home cool gadget, which doubles as stylish bathroom decor for your new home or apartment.

Easy to Install: Our toothbrush holder wall mounted can be easily installed on various surfaces using strong adhesive tape. It firmly adheres to metal, wood, mirrors, tiles, and marble, even in humid environments. For uneven walls or wallpaper that cannot bear weight, we provide nails for reinforcement and drilling, catering to different installation requirements.
