

THEODORE ALEXANDER

Inverted Floweret 1

D2534S50674-4082

Inverted Floweret 1 is a provocative large-scale work on canvas that offers strong contrast and profound mystery. This radiographic-inspired work gives the flower an almost ethereal quality. The bloom seems to be illuminated from within with its clearly defined petals. The element of light plays an important role in this monochromatic work with darker tones set off by lighter hues. This work is an intriguing departure from typical floral depictions. Instead of vibrant hues, this mesmerizing work invites the viewer to see an inherent, deeper beauty that is even more captivating.

Positive and negative space combines elegantly in Inverted Floweret 1. A stunning companion to Inverted Floweret 2, this romantic work of art is an original addition to the exclusive ART by TA Collection.
