

# ASSEMBLY INSTRUCTIONS

## Note:

Before assembling your new lamp, please read the following precautions and instructions thoroughly.

## IMPORTANT SAFETY INSTRUCTIONS:

This portable Lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in polarized outlet one way only. If the plug does not fit fully in the outlet, please reverse the plug. If it still does not fit, contact a qualified electrician. Never use an extension cord unless the plug can be fully inserted. Do not alter the plug. The electrical wire is connected continuously through the poles, do not pull wire during unpacking, bad connections may result.

Place the lamp indoor dry area only. The lamp produces very high temperature, always unplug electrical cord and allow sufficient time for bulb to cool down before replacing bulb.

1. Carefully unpack all parts from the packaging and place them on a carpet/flat/smooth surface. Be sure to remove all the packaging materials from the lamp.  
\* Do not plug into the electrical outlet when installing or replacing bulb.
2. Place the lamp harp (B) into the harp base on the bulb socket (A)
3. Place lamp shade (C) onto lamp harp (B), secure and tighten with finial (D)
4. Place the bulb onto the socket (LED bulb included)
5. Insert the plug into the wall outlet, you are ready to use

**WARNING:** For your long-lasting uses, please use Artiva approved Dimmable LED Bulbs only. Other brand may not be compatible to Artiva LED lamp, it may cause the dimmer switch to burn out quickly, therefore void the manufacture warranty that comes with this lamp. Please note: Because of the LED technology, it's normal to experience some flickering in LOW dim Level. As time progress, new LED technology will Overcome this issue.
