ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

1.Secure the screw collar loop and mounting plate assembly inside the junction box using the mounting screws.
2.Adjust the chain to the desired length. Pass the ring washer and the canopy over the fixture wires and the chain.
Then use a quick link to attach the chain to the screw collar loop and the fixture loop. Close the quick link securely.
3.Feed the fixture wires through the center hole of the crystal loop and mounting plate assembly.
Use wire connectors to connect the fixture hot wire (L) to the supply hot wire, and connect the fixture neutral wire (N) to the supply neutral wire.
Ensure no bare wire is exposed to prevent shock. Connect the ground wire to the supply ground wire, then secure the fixture ground wire and the supply ground wire to the mounting plate with the green grounding screw.
4.Push the canopy up against the ceiling, then tighten the ring washer to secure the canopy.
5.Secure the curved glass pieces to the fixture body using the nuts, fully threaded rod and silicone gaskets.
6.Install light bulbs (bulbs not included).

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.
1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock, be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
