Key Features

BOILING WATER IN A FLASH – Get piping hot water twice as fast as other traditional stovetop kettles! The Ovente Electric Kettle KG612S Series is powered by a 1500W (120V) motor, and it boils a full 1.7L pot of water in 7 minutes or less. It is 50% more efficient than other stovetop kettles in reducing your daily electricity use.

PIONEER IN DESIGN – Ovente is proud to introduce the KG612 with its ProntoFill lid, first of its kind in the market, which lets you pour water right through the lid to refill, allowing you to multi-task with your other hand.

SOPHISTICATED – It has a halo of blue LED lights that illuminate the pot when it's in use, making it a classy piece in both your kitchen countertops and dining tables. Because of its modern design, you won't need another thermos or pitcher. You can use the kettle straight from the kitchen to the dining table: The kettle looks elegant even when the LED lights are out.

FIRE-SAFE – Boil water while you take care of other tasks. This one is equipped with auto shut-off feature and boil-dry protection technology: It shuts off on its own when the pot has reached its
