

Disclaimer

At *Nova Living*, a brand by *Nova Elegance LLC*, we take pride in offering products crafted from high-quality solid wood. We assure our customers that each wooden product is properly chemically treated and seasoned or kiln-dried to minimize the risk of moisture-related issues, warping, or fungal growth.

However, as wood is a natural material, slight variations in grain, texture, and color are part of its organic beauty and are not considered defects. With proper care and maintenance, our solid wood products are designed to last and bring warmth and elegance to your home.

Thank you for choosing *Nova Living* – where quality meets craftsmanship.

Team,

Nova Elegance LLC
