

- Installation Guide**
- Before installation, please read the instructions carefully and familiarize yourself with the installation steps and methods.
 - Before installation, ensure all accessories (screws, handrails, wheels, etc.) are complete and undamaged.
 - Install the product on a flat surface in a well-lit environment.
 - The gas lift must be installed in an upright position; inversion is prohibited.
 - Use the provided tools, and for heavier parts, two people are recommended to work together.
 - After installation, check that all parts are securely fastened.

Precautions for Use

- Only adjust the seat using the handle adjuster. Do not disassemble the gas lift.
- Do not exceed the maximum load capacity (330 lbs). Ensure the seat is placed on a stable surface and avoid impacts.

Maintenance

- Clean with a soft cloth and neutral cleaner. Avoid alcohol or corrosive solvents.
- Regularly check screws, the gas lift, and other components to prevent loosening.
- Remove debris wrapped around the wheel legs periodically.
- Avoid prolonged exposure to sunlight or damp storage to prevent color fading or rust.

After-Sales Service

- If you encounter installation or usage issues, contact online customer service.
- If you notice any damage upon delivery, take photos immediately and contact online customer service. The receiving photos will serve as proof.
- If accessories are missing or damaged after unpacking, take photos and contact online customer service for replacements.

Guía de instalación

- Antes de la instalación, lea atentamente las instrucciones y familiarícese con los pasos y métodos de instalación.
- Antes de la instalación, asegúrese de que todos los accesorios (tornillos, pasamanos, ruedas, etc.) estén completos y sin daños.
- Instale el producto sobre una superficie plana en un entorno bien iluminado.
- La grúa de gas debe instalarse en posición vertical; está prohibida la inversión.
- Utilice las herramientas suministradas, y para las piezas más pesadas, se recomienda que dos personas trabajen juntas.
- Después de la instalación, compruebe que todas las piezas estén bien sujetas.

Precauciones de uso

- Ajuste el asiento únicamente con el regulador de la empuñadura. No desmonte el elevador de gas.
- No supere la capacidad de carga máxima (330 lbs). Asegúrese de que el asiento está colocado sobre una superficie estable y evite los impactos.
- Evite que los niños se suban o jueguen en la silla para evitar vuelcos.

Mantenimiento

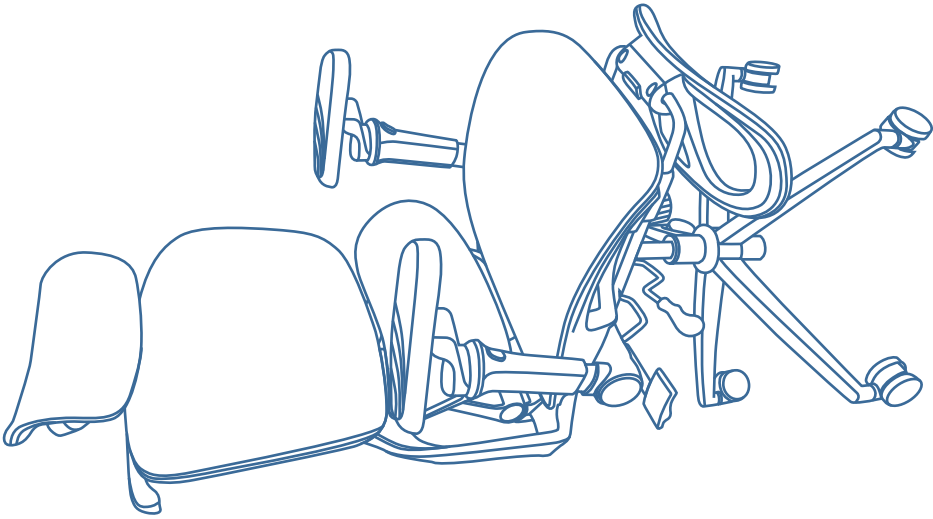

- Limpie con un paño suave y un limpiador neutro. Evite el alcohol o disolventes corrosivos.
- Compruebe regularmente los tornillos, el elevador de gas y otros componentes para evitar que se aflojen.
- Retire periódicamente los residuos que envuelven las patas de las ruedas.
- Evite la exposición prolongada a la luz solar o el almacenamiento en húmedo para evitar la pérdida de color o la oxidación.

Servicio postventa

- Si tiene problemas de instalación o uso, póngase en contacto con el servicio de atención al cliente en línea.
- Si observa algún daño en el momento de la entrega, haga fotos inmediatamente y póngase en contacto con el servicio de atención al cliente en línea. Las fotos de la recepción servirán como prueba.
- Si faltan accesorios o están dañados después de desembalarlos, haga fotos y póngase en contacto con el servicio de atención al cliente en línea para que se los cambien.

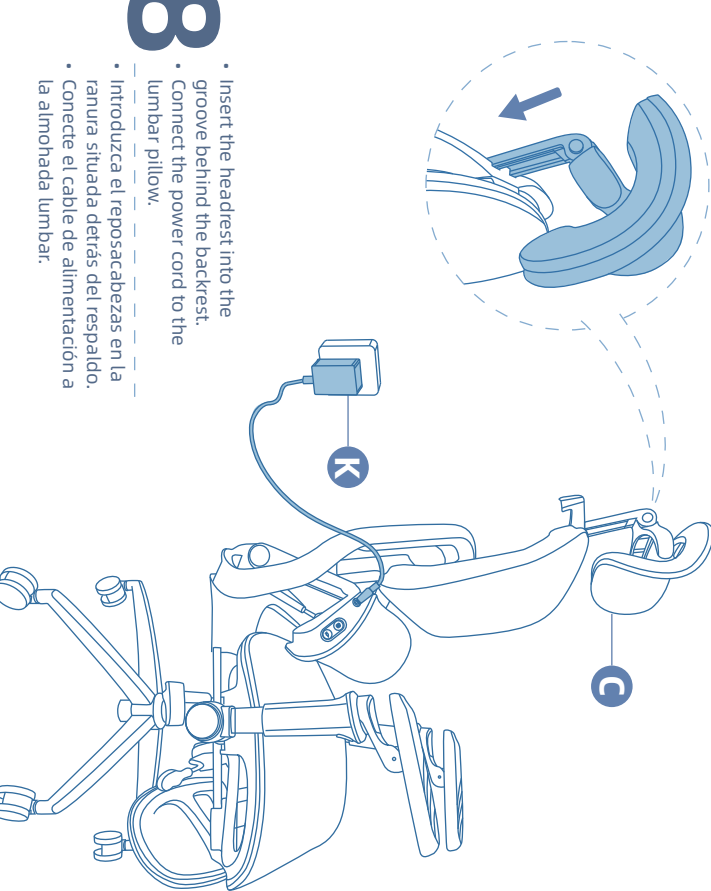

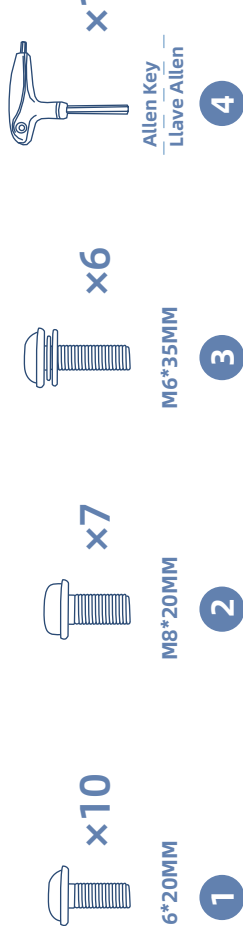

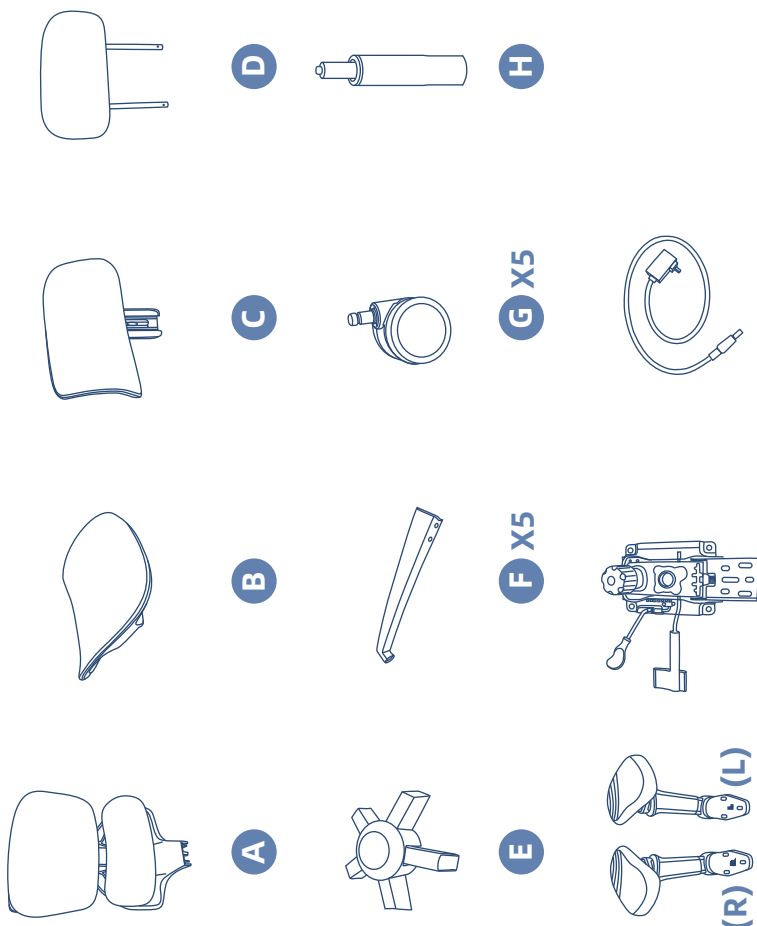

ERGONOMIC CHAIR

EN ES

Please read and understand all instructions before use.

Lea y comprenda todas las instrucciones antes de usar el producto.

- Insert the headrest into the groove behind the backrest. Connect the power cord to the lumbar pillow.

Introduzca el reposacabeza en la ranura situada detrás del respaldo. Conecte el cable de alimentación a la almohada lumbar.

FUNCTION DESCRIPTION | DESCRIPCIÓN DE LA FUNCIÓN

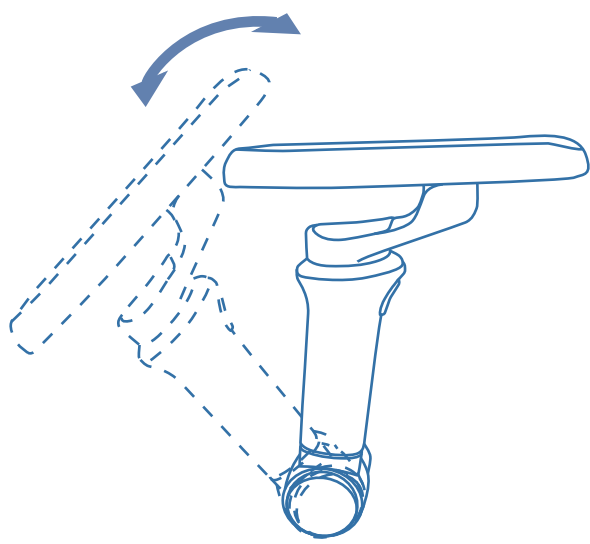

- Press and hold the button on the headrest to rotate it.
- Hold the headrest to move it up and down.
- Mantenga pulsado el botón del reposacabezas para girarlo.
- Sujete el reposacabezas para moverlo hacia arriba y hacia abajo.

- Hold the lumbar support to move it up and down.
- Lumbar support functions: ① Vibration ② Heating ③ Charging.
- Sujete el apoyo lumbar para subirlo y bajarlo.
- Funciones del apoyo lumbar: ① Vibración ② Calefacción ③ Carga.

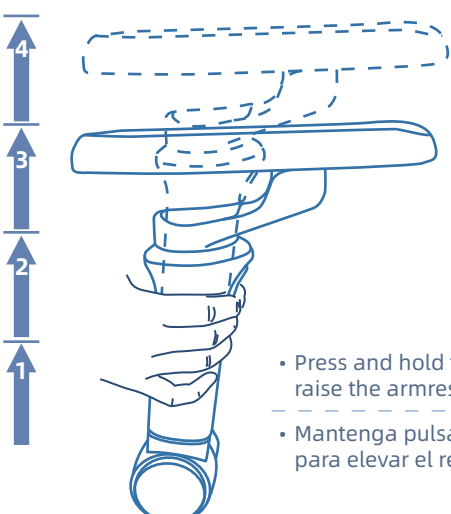

- Hold the backrest crossbar to adjust the height.
- When raised to the highest position, the backrest can be lowered to the lowest position.
- Sujete el travesaño del respaldo para ajustar la altura.
- Cuando se eleva a la posición más alta, el respaldo puede bajarse a la posición más baja.

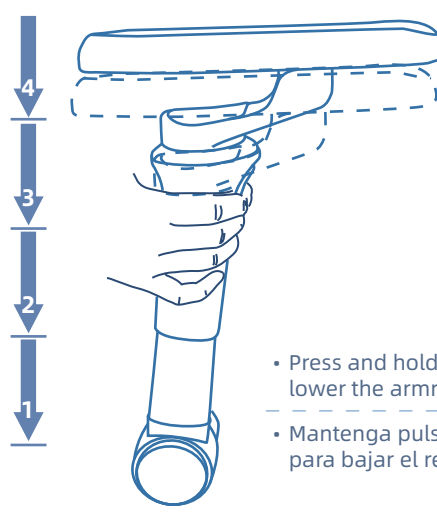

- The armrest can be tilted, adjusted in height, and rotated 360°.
- The armrest surface can be tilted, slid forward and backward, and rotated 360°.

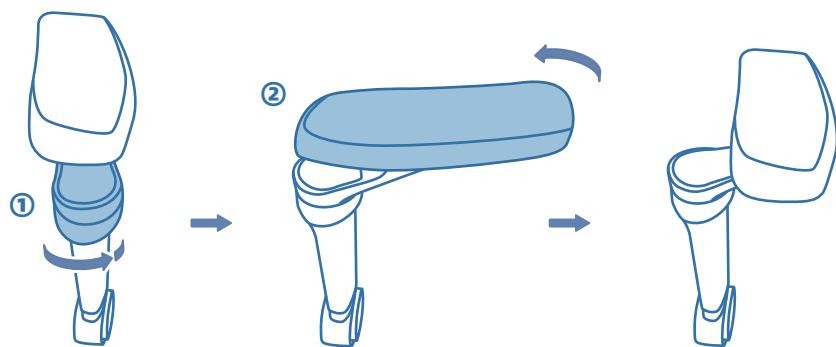

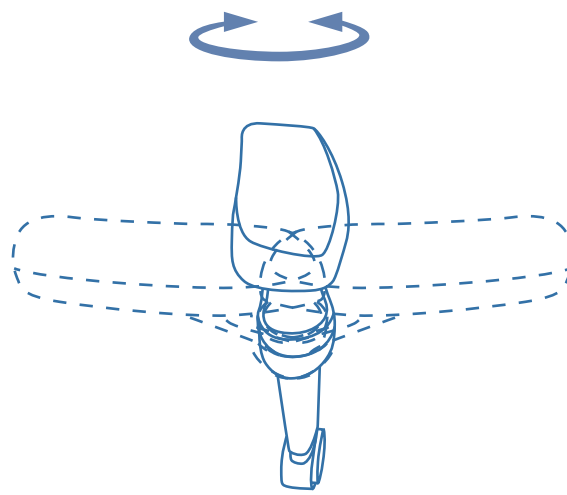

- El reposabrazos se puede inclinar, ajustar en altura y girar 360°.
- La superficie del reposabrazos puede inclinarse, deslizarse hacia delante y hacia atrás y girar 360°.

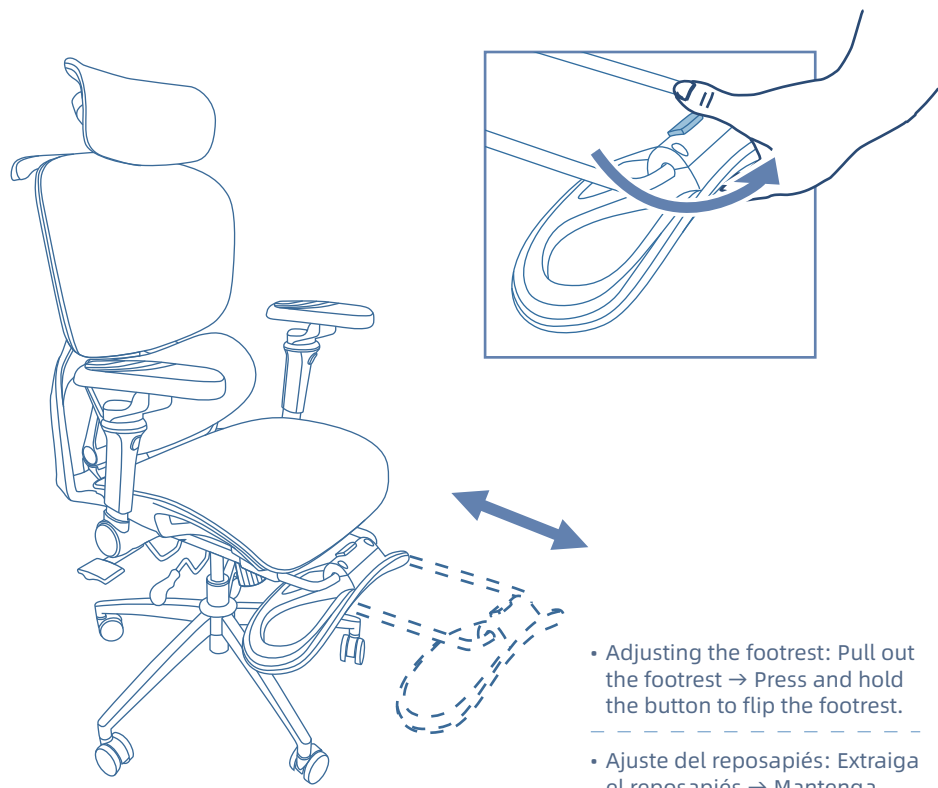

- Press and hold the button to raise the armrest.
- Mantenga pulsado el botón para elevar el reposabrazos.

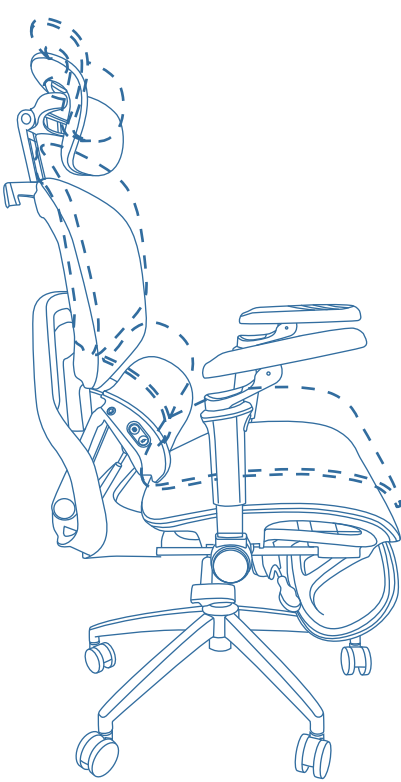

- Press and hold the button to lower the armrest.
- Mantenga pulsado el botón para bajar el reposabrazos.

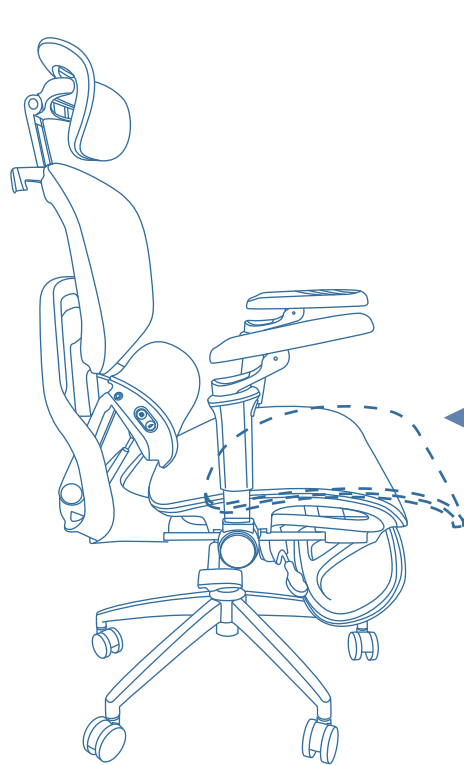

- Adjusting the width between armrests: Turn part ① outward → Turn part ② inward.
- Ajustar la anchura entre los reposabrazos: Gire la pieza ① hacia fuera → Gire la pieza ② hacia dentro.

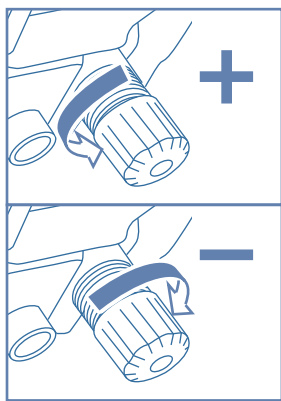

- Adjusting the footrest: Pull out the footrest → Press and hold the button to flip the footrest.
- Ajuste del reposapiés: Extraiga el reposapiés → Mantenga pulsado el botón para abatir el reposapiés.

- Adjusting the seat height:
- 1. Raising:** Lift your hips slightly → Hold the handle and pull down → Raise to the desired height → Release the handle.
- 2. Lowering:** Sit on the seat → Hold the handle and pull down → Lower to the desired height → Release the handle.
- Ajuste de la altura del asiento:
- 1. Elevación:** Levante ligeramente las caderas → Sujete el asa y tire hacia abajo → Suba hasta la altura deseada → Suelte el asa. **2. Bajar:** Siéntese en el asiento → Sujete el asa y tire hacia abajo → Baje hasta la altura deseada → Suelte el asa.

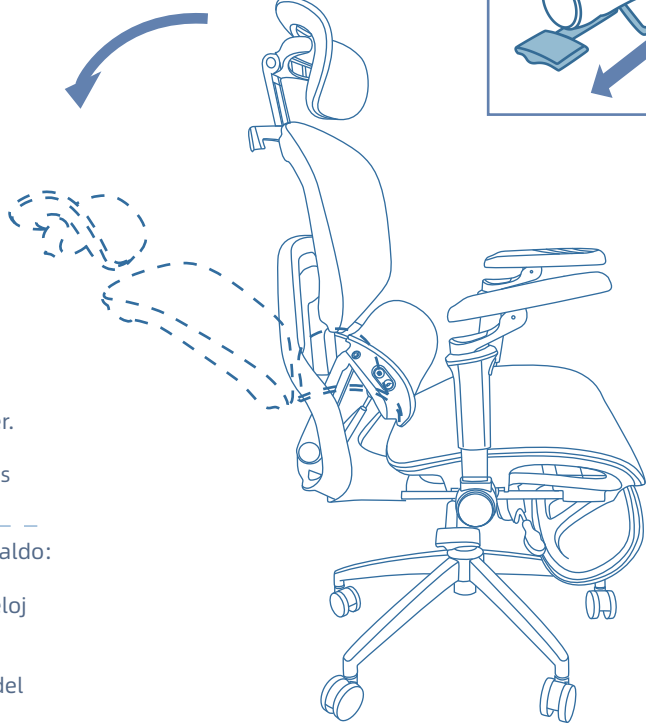

- Adjusting Seat Position:
- 1. Forward:** Keep lower back against seatback → Pull and hold the handle → Slide hips forward.
- 2. Return to Position:** Raise hips slightly → Pull the handle to reset.
- Ajuste de la posición del asiento:
- 1. Forward:** Mantenga la parte inferior de la espalda contra el respaldo → Tire del asa y sujétela → Deslice las caderas hacia delante.
- 2. Volver a la posición:** Levante ligeramente las caderas → Tire de la empuñadura para reajustar.

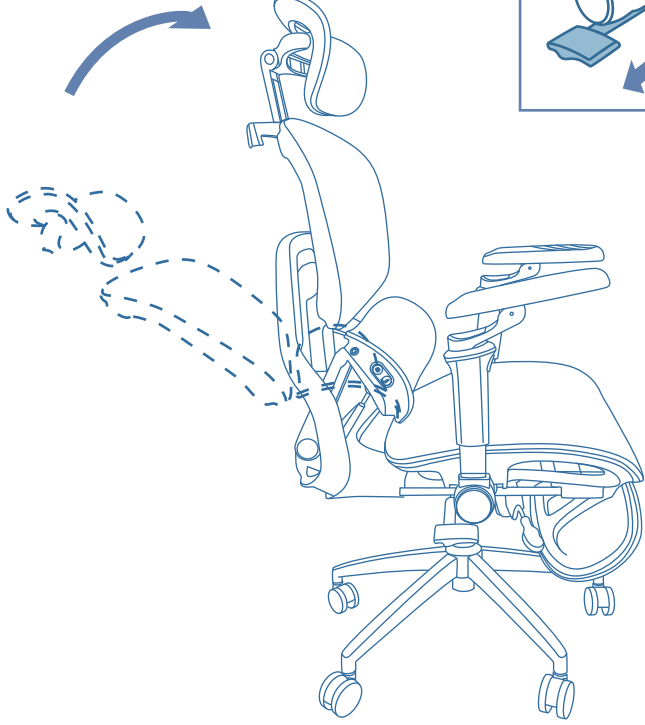

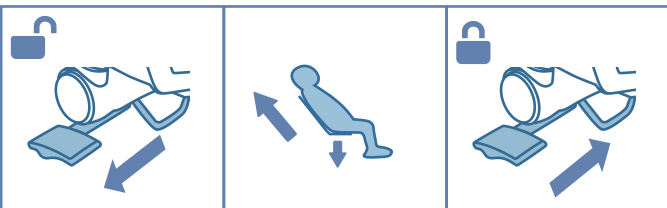

- Adjusting Backrest Tilt Resistance:
- 1. Loosen (for lighter weight):** Rotate the knob clockwise → Tilt becomes easier.
- 2. Tighten (for heavier weight):** Rotate the knob counterclockwise → Tilt requires more force.

- Ajuste de la resistencia a la inclinación del respaldo:
- 1. Afloje (para un peso más ligero):** Gire el mando en el sentido de las agujas del reloj → La inclinación se hace más fácil.
- 2. Apriete (para un peso mayor):** Gire el pomo en sentido contrario a las agujas del reloj → La inclinación requiere más fuerza.

- Adjusting Backrest Angle:
- 1. Reclining:** Pull the handle outward to unlock → Lean backward to the desired angle → Push the handle inward to lock.

- Ajuste del ángulo del respaldo:
- 1. Reclinado:** Tire de la empuñadura hacia fuera para desbloquearla → Inclínese hacia atrás hasta el ángulo deseado → Empuje la empuñadura hacia dentro para bloquearla.

- Adjusting Backrest Angle:
- 2. Resetting:** Pull the handle outward to unlock → Lean back to the preset angle → Listen for a "click" sound → After sitting up, the backrest will automatically return to its original position.

- Ajuste del ángulo del respaldo:
- 2. Reajuste:** Tire del asa hacia fuera para desbloquearla → Inclínese hacia atrás hasta el ángulo preajustado → Escuche un "clic" → Después de sentarse, el respaldo volverá automáticamente a su posición original.
