

Planting Guide

PLANTING STEPS

STEP 1: Unpack the planter and ready for planting - (liner can be used for water barrier).

STEP 2: Fill bottom third of planter with polystyrene as void filler.

STEP 3: Place a liner into the planter.

STEP 4: Use hydroclay pebbles as your drainage layer.

STEP 5: Place the plant inside the planter with or without grow-sleeve.

STEP 6: Use a substrate or potting soil to fill the void around plant.

STEP 7: Water plant thoroughly.
