

# METAL FOLDING PLATFORM/FOUNDATION BED FRAME

## Twin/Full/Queen/King

### FOUNDATION ASSEMBLY INSTRUCTIONS

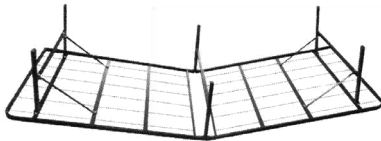

#### ASSEMBLE THE FOUNDATION

1) Take all components out of the box and position them on the floor.

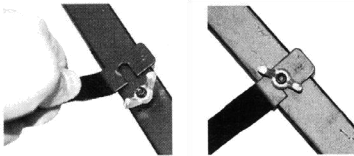

NOTE: For twin size there is only one piece.

2) Unfold each half and lay flat.

3) Raise all six legs to the upright position.

4) Each of the four end legs have separate support arms.

5) Rotate the support arms to hook onto the bolts and tighten with installed wing nuts. NOTE: The two center legs do not require wing nuts.

6) Tighten the wing nut until secure. Repeat the process for the remaining three end legs, making sure all wing nuts are tightly secured.

#### ATTACH THE TWO SIDES TOGETHER

7) Flip the base over to stand upright.

8) Follow steps 1 through 6 to assemble the other base unit.

9) Position the two halves together with keyhole locked in place.

**ENJOY YOUR NEW FOUNDATION!**
